Handbook of Research on Current Trends in Cybersecurity and Educational Technology Jimenez, Remberto, O'Neill, Veronica E., 2023-02-17 There has been an increased use of technology in educational settings since the start of the COVID 19 pandemic. Despite the benefits of including such technologies to support education, there is still the need for vigilance to counter the inherent risk that comes with the use of such technologies as the protection of students and their information is paramount to the effective deployment of any technology in education. The Handbook of Research on Current Trends in Cybersecurity and Educational Technology explores the full spectrum of cybersecurity and educational technology today and brings awareness to the recent developments and use cases for emergent educational technology. Covering key topics such as artificial intelligence, gamification, robotics, and online learning, this premier reference source is ideal for computer scientists, industry professionals, policymakers, administrators, researchers, academicians, scholars, practitioners, instructors, and students.

Affective and Pleasurable Design Shuichi Fukuda, 2025-07-26 Proceedings of the 16th International Conference on Applied Human Factors and Ergonomics and the Affiliated Conferences Orlando, Florida, USA, 26-30 July 2025 **The Social Media Age** Zoetanya Sujon, 2021-04-07 Exploring power and participation in a connected world. Social media are all around us. For many, they are the first things to look at upon waking and the last thing to do before sleeping. Integrated seamlessly into our private and public lives, they entertain, inform, connect, and sometimes disconnect us. They're more than just social; though. In addition to our experiences as everyday users, understanding social media also means asking questions about our society, our culture, and our economy. What we find is dense connections between platform infrastructures and our experience of the social, shaped by power-shifting patterns of participation and a widening ideology of connection. This book introduces and examines the full scope of social media. From the social to the technological, from the everyday to platform industries, from the personal to the political, it brings together the key concepts, theories, and research necessary for making sense of the meanings and consequences of social media, both hopefully and critically. Dr. Zoetanya Sujon is a Senior Lecturer and Programme Director for Communications and Media at London College of Communication, University of the Arts, London.

The SAGE Handbook of Social Media Marketing Annmarie Hanlon, Tracy L. Tuten, 2022-06-16 Social media marketing has become indispensable for marketers who utilize social media to achieve marketing objectives ranging from customer care to advertising to commerce. This Handbook explores the foundations and methodologies in analysing the important aspects of social media for organisations and consumers. It investigates critical areas concerning communities, culture, communication, and content, and considers social media sales. This Handbook brings together the critical factors in social media marketing as the essential reference set for researchers in this area of continued growth. It is essential reading for postgraduate students, researchers, and practitioners in a range of disciplines exploring the area. Part 1: Foundations of Social Media Marketing; Part 2: Methodologies and Theories in Social Media; Part 3: Channels and Platforms in Social Media.
