Popular Science Monthly ,1926 **Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates?** Huong Hoang Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract
What will happen if there aren t enough talents to fill the market in the future due to the demographical change
This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany
An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market
In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends
The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively
On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work
However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity
Additionally many German companies face a shortage of workers due to digital transformation
Another reason that causes workforce shortage is demographical change
Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates
Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences
Therefore companies must know them and their work preferences to fill the workforce shortage gap
Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic
However there aren t any specific regulations regarding remote work in Germany yet
In general remote work provides workers e g more freedom and a better work life balance
Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co workers less productivity outside of the office etc
For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers
But on the other side remote leadership has become a big challenge for leaders
Furthermore companies have to deal more with cyber security
When everything s going remotely companies have become an easier target of cyber attacks Management
