Demystifying Artificial Intelligence Emmanuel Gillain,2024-07-22 This book is intended for business professionals that want to understand the fundamental concepts of Artificial Intelligence their applications and limitations Built as a collaborative effort between academia and the industry this book bridges the gap between theory and business application demystifying AI through fundamental concepts and industry examples The reader will find here an overview of the different AI techniques to search plan reason learn adapt understand and interact The book covers the two traditional paradigms in AI the statistical and data driven AI systems which learn and perform by ingesting millions of data points into machine learning algorithms and the consciously modelled AI systems known as symbolic AI systems which use explicit symbols to represent the world and make conclusions Rather than opposing

those two paradigms the book will also show how those different fields can complement each other All royalties go to a charity Demystifying AI reveals its true power not as a mysterious force but as a tool for human progress accessible to all who seek to understand it Dr Barak Chizi Chief Data Analytics Officer KBC Group

Non-Native Speakers Only: The Best Way to Start Writing as a Non-Native Speaker & Make a Living from Web Content Writing as Modern Storytellers M. Gaspary, 2023-04-28 Learn how to build a successful and meaningful author brand as a modern storyteller with 100% control of the result you want for your writing business Not only does the book show the rulebook of effective content writing but it also serves as transformative and inspirational material that will push you to take action and commit to changing the direction of your writing life

BACKGROUND STORY As a non native English speaker in the freelance writing industry many people needed to be more convinced about our language fluency However you will only achieve something if you take action for your goals The same problem will get you stuck in an unending cycle of financial frustration and hopelessness which will eventually become the reason for depression You will continue to need help finding good writing opportunities though the internet can provide billions of possibilities in seconds

INTRIGUED BUY THE BOOK NOW Get your hands on Non Native Speakers Only by M Gaspary and enjoy reading with life changing benefits such as Seeing a different perspective of yourself as an NNS writer Developing a plan that guarantees a thriving writing career Increasing writing confidence as a non native speaker Could you tell me why I should buy this book My life changed when I applied the three 3 core values to my writing routine and earned my first 4 figures from freelance content writing Since then my emails have been flooded with job offers from different people and companies without searching for them Overall my writing life thrived effortlessly Is this what you want Is this how you want your writing career to look If you say yes don t miss this rare one of a kind opportunity to learn and discover the secret code of content writing You will never regret this decision It may only cost you a few dollars but the value you re getting is ten folds If not more So better do something that will make you believe you can achieve impossible things as an NNS writer NOW is the perfect time for you to prove that you can It s now or never

Reading Faces Edward Higgs, 2025-10-20 Reading Faces is the first book to discuss the historical contexts and theoretical underpinnings of the artificial intelligence AI systems that identify individuals or purport to ascribe emotions and characteristics to them based on their facial features It examines the direct impact of past research on the development of AI systems the way in which the past provides contexts which have predisposed people to accept outputs of AI systems as common sense how the role of politics and the changing nature of the state have led to the introduction of AI systems and their precursors how previous technologies led to the acceptance of the introduction of superficially similar AIs and how the outputs and biases such as purported associations between race and criminality of facial biometrics systems have been determined by the historical nature of the underlying datasets they analyze Reading Faces approaches these issues within the sweep of Western History how it has shaped conceptual categories about the application and ethics of AI and tried to

foist those ideas and values on the Global South This book is essential reading for postgraduates scholars as well as non specialist readers such as booksellers and librarians interested in modern AI technology **The Christian Union** ,1886
