equips students with the necessary skills to become impactful members of today's business world *Digital Immersive Art in China* Xinyang Zhao, 2024-10-08 China has been stereotypically perceived as a place of backwardness. However, the 21st century has been a transitional period for China to express its cultural power. This book explores how digital technology, in particular virtual reality (VR) and augmented reality (AR), is playing a role in China's rejuvenation, especially in relation to cultural displays, performances, and art exhibitions. It examines how audiences both in China and globally respond to Digital China through digital immersive art. Drawing on the author's anthropological research and empirical studies on stakeholders and audience reception, this book provides a comprehensive understanding of the transformative power of digital technology and its impact on cultural experience in contemporary China. The reform of the cultural system over the past two decades in China has fostered a techno-cultural imaginary, mixed with the celebration of Chinese civilisation and advanced by digital technology and entrepreneurs. Such a hybrid imaginary influences how people view and consume digital immersive art. Much digital immersive art within China is thus viewed within the framework of modernisation, as the case studies in this book will show. Outside China, however, the dominant narrative of techno-orientalism prevails, constructing a different image of Digital China: a technocratic state. *Unpacking "De-risking" China in the Indo-Pacific Region* Karl Chee Leong Lee, Jens Damm, Nurliana Kamaruddin, Nur Shahadah Jamil, Alan Hao Yang, 2025-12-29 Lee and editors bring together a group of international scholars to map the overall landscape of de-risking China, a concept that drew consensus among the Group of Seven (G7) countries. Divided into three themes of conceptual evolution, national responses of individual Indo-Pacific countries, and prospects of success, with featured case studies, this groundbreaking work explores the origins and developments of de-risking China in a region that will define the 21st century. Drawing on rich findings by different scholars, it demonstrates that a wide spectrum of variations exists insofar as the Indo-Pacific countries' observance to the concept of de-risking China. This is a must-read book for academics, scholars, and university students of International Relations and Political Science, as well as those interested in understanding the evolving dynamics of de-risking China among the Indo-Pacific countries today.
