Development Goals Doshi, Ruchi,Dadhich, Manish,Poddar, Sandeep,Hiran, Kamal Kant,2024-06-03 A new challenge has become present in the field of generative artificial intelligence AI The fundamental nature of education a vital element for advancing the United Nations Sustainable Development Goals SDGs now grapples with the transformative impact of AI technologies As we stand at this intersection of progress and pedagogy critical questions surface about the future roles of educators and the integrity of assessment processes AI s rapid progression prompts an exploration of the competencies our education systems must cultivate in a world where human and machine intelligence are becoming increasingly

interconnected Against this backdrop of transformative uncertainty Integrating Generative AI in Education to Achieve Sustainable Development Goals addresses profound challenges and offers promising solutions at the crossroads of AI and education This book assembles distinguished academics researchers and practitioners forming a collective voice on the intersection of Generative AI and education The three part structure dissects the technical aspects of AI powered innovations in educational design explores multidisciplinary applications enhancing educational content and highlights AI driven solutions to address equality and inclusion concerns within educational systems The book also underscores the importance of ethical considerations of generative AI to ensure a future where technology serves the broader goals of sustainability and equitable education

Examining AI Disruption in Educational Settings: Challenges and Opportunities Kessinger, Michael W., Nelson, Gera S., Lennex, Lesia, Nettleton, Kimberly Fletcher, 2025-05-21 The role of AI in education is slowly growing As a new technology its uses and capabilities have not been fully realized or understood AI provides many opportunities as well as challenges for supporting students teachers and skills development However from higher education faculty to preschool teachers the ways in which AI can support planning research and student learning are not fully understood When harnessed effectively AI has important implications for overcoming global concerns and increasing educational equality Examining AI Disruption in Educational Settings Challenges and Opportunities provides practical researched examples of how AI has been applied in educational settings It examines current AI policies and considers the ways in which education may change with the use of AI Covering topics such as field experience preparation critical thinking skills and global education patterns this book is an excellent resource for pre service teachers in service teachers higher education faculty technologists professionals researchers scholars academicians and more

Technologies in Palliative Care for Older People Amara Callistus Nwosu, Sarah Stanley, James Norris, Mark Taubert, 2025-11-24 This book provides a comprehensive overview of palliative care digital health by covering current developments methodology clinical relevance research priorities ethical issues and policy related to technological innovations for those with serious illness This type of book does not currently exist in the literature as previous work primarily focuses on digital health for early identification of disease and facilitating self care or aging in place practices This book addresses the lack of focus on digital health for people with palliative care needs This book has a special focus on the needs of individuals as their health worsens throughout their illness Consequently the reader will benefit from this book s focus on the science methodology application and practicality of digital health developments in palliative care This book explores the barriers that prevent the meaningful use of digital health in palliative care including expenses interoperability issues data privacy and security concerns lack of effectiveness and equity and the concern that technology may reduce face to face consultations between patients and clinicians There is an overall lack of consensus about digital health research priorities in palliative care and a lack of theories about how these technologies might improve care outcomes Therefore this book emphasizes the importance of identifying discussing and debating how technological innovations can be

meaningfully used to ensure that frail people have appropriate access to palliative care services Consequently this book begins the conversation about articulating digital health research priorities in palliative care to determine how finite resources should be allocated to a field saturated with rapidly developing innovation **Black Enterprise** ,2000-10 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance *Own the A.I.
