**Bots, and Tutors: Creative Approaches to Human-AI Synergy in Classroom Instruction** Edwards, Bosede Iyiade, Abuhassna, Hassan, Olugbade, Damola, Ojo, Olayinka Anthony, Jaafar Wan Yahaya, Wan Ahmad, 2025-06-17 Emerging technologies are transforming education. By incorporating gamification into the curriculum, teachers are having an impact on the engagement of their students, leading to optimized learning experiences that still encourage human creativity. Additionally, with the use of virtual tutors, students have better access to educational resources that further their academic achievement. As a result, teachers are equipped to manage the individual learning needs and enhance the cognitive development of their students. Thus, it is important to refine these tools and products to achieve greater effectiveness in diverse educational settings. *Generators Bots and Tutors: Creative Approaches to Human AI Synergy in Classroom Instruction* aims to significantly contribute to the ongoing discourse on the integration of technology in education by presenting cutting-edge research that addresses both the theoretical frameworks and practical applications of digital learning tools. It introduces new perspectives on the role of artificial intelligence, AI immersive technologies, and gamification in education and how these can be harnessed to optimize learning experiences. Covering topics such as non-player characters (NPCs), emotional connections, and classroom instructions, this book is an excellent resource for educators, instructional designers, educational administrators, policymakers, technology developers, educational technology entrepreneurs, professionals, researchers, scholars, academicians, and more.

Donovan, 2025-04-30 *Teaching Poetry in a Digital World* supports English language arts (ELA) educators for grades 6-12 to incorporate digital literacy in their classrooms by teaching the reading and writing of poetry. In an increasingly digital age, educators must adapt to meet the changing needs and interests of their students by incorporating technology into the classroom. This book introduces its audience to the ePoetry Framework. This framework demonstrates how poetry might present itself in a literacy-based unit with the benefit of a technology medium to share with the world. Examples include teaching a zip ode, poetry incorporating haiku with the creation of GIFs, and ethically discussing AI with nonet poems. With adaptable lesson plans and assessments, as well as educator examples, the book will inspire teachers to create intentional, student-centered ePoetry units. The book is aligned with ELA literacy standards, International Society for Technology in Education (ISTE) educator standards, and National Council of Teachers of English (NCTE)'s position statement for integrating technology into ELA classrooms. It is a key resource for secondary school educators teaching ELA creative writing and digital media.      **Understanding Media Psychology** Gayle S. Stever, David C. Giles, J. David Cohen, Mary E. Myers, 2025-07-23 *Understanding Media Psychology* is an authoritative introductory textbook on the growing field of media psychology.

Providing an overview of topics in the field it summarizes key concepts and theories and considers the importance of media psychology in today's society. The second edition of this bestselling textbook has been fully updated to reflect the changing landscape of media psychology. The new edition features a brand new chapter on news and political media as well as increased focus on AI and new forms of social media. It covers core areas such as positive media psychology, audience research and the effect of gaming, violence, advertising and pornography, critically engaging with contemporary discussions around propaganda, fake news, deepfakes and how media and health psychology interacted during the COVID-19 pandemic and beyond. Written by a team of expert authors, this book will help readers understand the structures, influences and theories around media psychology. Particular care is also given to addressing the interaction between issues of social justice and the media as well as the effects media has on both the members of marginalized groups and how those groups are perceived. A student website and instructor resources provide further ways to engage with the content and support teaching and learning. Containing a range of pedagogical features throughout to aid teaching and student learning, including vocabulary and key terms, discussion questions and boxed examples, this is an essential resource for media psychology courses at the undergraduate and introductory master's levels globally.
