**Winning Strategies to Dominate Affiliate Marketing** Jeffrey Brooks, 2012-11-23 Affiliate internet marketing is a very recent development and is soon gaining solid grounds Affiliate marketing allows you to get associated with leading bloggers and website owners ready to promote your services or products An affiliation is a relationship an agreement between two parties in which one party sells the products or services of the other in exchange for a commission A good online affiliation program even with a competitor can supercharge sales The product owner wins with additional sales and the affiliate wins by receiving a commission If you indulge in affiliate internet marketing there are no chances of you losing money All the money you invest will surely bring you results because in affiliate internet marketing you only pay on basis of performance You only have to pay only when a lead is converted or sales takes place through affiliate marketing The affiliate does not have to create or transport the product that is sold or even collect the money This is all provided by the owner of the product This is a huge advantage for the affiliate because startup costs are low The beginning affiliate needs primarily only focus on product promotion Even though affiliate marketing is touted as one of the easiest and most effective ways to generate income online
