Political ecologies of the far right Irma Kinga Allen, Kristoffer Ekberg, Ståle Holgersen, Andreas Malm, 2024-05-28 This volume engages with the alarming convergence of far-right thinking and the ecological crisis in contemporary society. Growing out of the first international conference on political ecologies of the far right, the volume gathers crucial insights from authorities in the field as well as promising early-career researchers. With cases ranging from ethnographical accounts of fossil-fuel populist protest to historical analysis of the evangelical support for fossil fuels, to interrogations of the settler-colonial identities and material conditions defended by far-right actors around the world, the book provides scholars, students, and activists with ways to understand and counter these developments. The Organized and Engaged Supervisor Behnam Bakhshandeh, Aileen G. Zaballero, William J. Rothwell, 2025-06-30 Balancing organization and engagement is the cornerstone of a workplace where supervisors and their teams can genuinely thrive. Effective organization goes beyond checking boxes and meeting quotas; it's about creating an environment where clear direction and supportive leadership enable everyone to do their best work. Supervisors play a pivotal role in this dynamic, navigating their own tasks while guiding their teams and meeting the expectations of clients and higher management. The challenge is maintaining this balance, managing projects and leading with limited time and resources. However, even the most meticulously organized supervisor can't optimize their teams without veritable engagement. Lasting success comes from integrating structure with human connection. A great supervisor allocates resources effectively and builds an

atmosphere where employees feel valued motivated and genuinely connected to their work This book is your comprehensive guide to mastering this delicate balance Packed with practical insights and proven strategies this book will help elevate your leadership skills and team dynamics creating a culture where productivity and commitment are seamlessly intertwined
