A Comparative Study of ChatGPT and Seq2Seq Chatbot for Effective Students Advising , A

Comparative Study of ChatGPT and Seq2Seq Chatbot for Effective Students Advising Exploring an AI Chatbot to Close School Counselor Information Gaps Kalee Crandall,2024 Chatbots are an emerging technology that stimulate conversations with humans often using generative artificial intelligence AI This technology is becoming increasingly relevant particularly in the field in school counseling For school counselors facing growing demands utilizing data to demonstrate the effectiveness of their services on student outcomes is crucial to secure recent position increases Historically school counselors have struggled with the expectation to use data and utilize available technology AI chatbots have the potential to help school counselors a traditionally non technical audience efficiently evaluate data create goals and explore potential interventions to accomplish those goals To support school counselors in the data driven decision making process and explore the various factors and design principles that influence satisfaction and continuance intention in a non technical field this research employs a Design Science Research Methodology to design and evaluate an AI chatbot grounded in principles of the Information Gap Theory and the Post Acceptance Model of Information Systems Continuance The proposed artifact is demonstrated by implementing a single case study to evaluate a school counselor s satisfaction and continuance intention after using the chatbot The findings of the quantitative analysis reveal curiosity has a significant influence on perceived usefulness of the AI chatbot and perceived usefulness is the greatest predictor of continuance intention Curiosity was stimulated in users by revealing gaps in their current knowledge increasing awareness of the system s potential benefits and making the interaction pleasurable Results of the qualitative analysis reveal for an AI chatbot to be adopted by school counselors it must optimize their workload establish clear expectations encourage ongoing interaction by asking curiosity inducing questions use social comparison to gain support and sustain user engagement by meeting user s needs using open ended closure This research not only contributes to the field of Information Systems by exploring the influence of curiosity on user satisfaction and continuance intentions using a DSRM but also assists designers and developers by identifying design principles and considerations of an AI chatbot Additionally the study contributes to school counseling by providing a technology that supports school counselors in data driven decision making improves efficiency and enhances services provided to students all of which can reinforce the school counselor s role in the education system Abstract leaves iv

Harnessing Chatbots for Effective Language Teaching González Vallejo, Rubén,2025-04-17 Artificial intelligence AI has been introduced into tools and technologies such as chatbots for language teaching allowing educators to better meet the needs of individual students Chatbots may act as virtual tutors in online learning environments giving students the ability to access leaning support as needed Chatbots can improve educational accessibility for students with special needs or those in resource limited areas Challenges and ethical considerations including data privacy and algorithmic bias must be addressed to effectively harness the transformative opportunities AI presents to enhance learning personalization and efficiency

Harnessing Chatbots for Effective Language Teaching addresses the problem of traditional language teaching methods which often fail to meet the diverse needs of learners. It provides insights and tools to effectively integrate chatbots into educational practices, thereby improving the learning experiences on a global scale. Covering topics such as task-based teaching, gamification, and student wellbeing, this book is an excellent resource for educators, technologists, EdTech developers, policymakers, researchers, scholars, academicians, and more.

A Teacher's Guide to Conversational AI David A. Joyner, 2024-05-27. A Teacher's Guide to Conversational AI explores the practical role that language-based artificial intelligence tools play in classroom teaching, learning experiences, and student assessment. Today's educators are well aware that conversational and generative AI chatbots, intelligent tutoring systems, large language models, and more represent a complex new factor in teaching and learning. This introductory primer offers comprehensive, novice-friendly guidance into the challenges and opportunities of incorporating AI into K-12 schools and college classes in ways that are appropriate, nourishing to students, and outcomes-driven. Opening with an informative overview of the foundational properties, key terminology, and ethical considerations of these tools, the book offers a coherent and realistic vision of classrooms that are enhanced rather than stymied by AI systems. This includes strategies for designing assessments that are conducive to students' beneficial use of AI while mitigating overreliance or dishonesty; using AI to generate lesson examples for student critique or custom content that reinforces course principles; leveraging chatbots as a co-instructor or a tutor, a guide during student-driven learning, a virtual debate or brainstorming partner, and a design project; and creating course content, lesson plans, and activities. Expanded language and accessibility options and beyond. Through the depth of understanding and applied approach provided in these chapters, teachers and leaders in training and in service, alongside private tutors, college instructors, and other educators, will be better prepared to future-proof their efforts to serve new generations of learners.

Smart Bots, Happy Customers Gosia Szaniawska-Schiavo, 2024-08-26. Did you know that AI can automate up to 58% of customer service interactions? Our study on chatbot statistics also confirmed that almost 1.5 million people had at least one conversation with a chatbot within the past year. Well, AI revolutionized how businesses help their clients. It enabled 24/7 support through chatbots and virtual assistants, increased efficiency, and allowed human agents to focus on more complex issues. There is just one issue: Not every chatbot is AI. Simultaneously, not all AI-powered solutions will be perfect for all tasks related to customer service, especially in the e-commerce field. Believe us, we would know. At Tidio, we help 300k businesses worldwide automate customer service, collect leads on autopilot, and increase sales. Tidio is one of the most installed chatbot and live chat companies worldwide, specializing in providing tailored customer service solutions. We always strive to be on the cutting edge and respond to our customers' biggest challenges. One of them is strategically combining rule-based and AI-powered chatbots so that businesses can elevate their customer service to new heights.

Enhancing Student Support and Learning Through Conversational AI Assayed, Suha Khalil, 2025-09-05. Artificial Intelligence (AI) is significantly

transforming student guidance and support through tools like chatbots and conversational assistants which provide academic emotional and administrative assistance through the use of natural language processing and machine learning These AI powered tools enhance students educational experiences by ensuring flexible access to assistance real time information and continuous support Enhancing Student Support and Learning Through Conversational AI focuses on the role of conversational AI in enhancing student guidance presenting innovative research and practical applications that address the diverse needs of learners It provides novel research and models for deploying conversational AI and chatbots in education covering both K 12 and higher education Covering topics such as curriculum development leadership education and virtual counseling this book is an excellent resource for educators administrators policymakers researchers academicians and more

How To Choose Ai Chatbot For Website For College Students Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the energy of words has become more evident than ever. They have the capacity to inspire, provoke, and ignite change. Such is the essence of the book **How To Choose Ai Chatbot For Website For College Students**, a literary masterpiece that delves deep into the significance of words and their impact on our lives.
