Sánchez-Rodríguez,Sepideh Ebrahimi,Ingrid Splettstoesser,2023-10-23 As digital transformation becomes increasingly central to effective corporate strategy today s students must learn how information systems provide the foundation for modern business enterprises Known for its rich Canadian content and focus on active learning *Introduction to Information Systems* Sixth Canadian Edition shows students how they can use IS to help their current or future employers increase profitability improve customer service manage daily operations and drive impact in their markets This course demonstrates that IT is the backbone of any business whether a student is majoring in accounting finance marketing human resources production operations management or MIS In short students will learn how information systems provide the foundation for all modern organizations whether they are public sector private sector for profit or not for profit Think Like a Human

David Weitzner,2025-05-13 A new way of thinking that improves how we work create and live empowering readers to outsmart AI a tool that can never do what humans do The bedrock on which technology has been built and on which we now make strategic political ethical and even day to day decisions algorithmic thinking is flawed As we race headlong into a future where we outsource all our problem solving to artificial intelligence the greatest threat is not superintelligent machinery but too much trust in Big Tech and not enough trust in the power of our own minds *Think Like a Human* offers a

new way forward what Dr Weitzner calls artful intelligence a philosophy that can help each of us solve problems and make better decisions To think artfully is to approach problem solving not just with our brains but with our hands eyes and ears along with our literal and metaphorical hearts and guts tapping into the myriad of underutilized cognitive resources distributed throughout our bodies Think Like a Human is a refreshing antidote and reality check to artificial intelligence mania and fear Cutting through the hype misinformation and corporate hustle around AI this book will inspire you to adopt the artful approach bringing intuition and emotional intelligence to your work and life *Moore's Rural New-Yorker* ,1913
