AI Mail Assistant

Christina J.

Dear James,

I would like to schedule a meeting with you to discuss our possible partnership. Are you available sometime next week? I am flexible with my schedule and can work around your availability.

Also I would like to ask you to discuss about the partnership project with the finance team to check if they agree with the pricing.

Lastly, could you give me ideas on how to market our partnership and what could be the options. You could check with your marketing team as well the options.

Looking forward to hearing back from you.

Best regards,

Christina

1. Christina is interested in discussing a possible partnership with James.
2. She is flexible with her schedule and is asking James to suggest a convenient time for the meeting.
3. Christina wants James to discuss the partnership project with his finance team to ensure that they agree with the pricing.
4. She also wants James to provide ideas on how to market the partnership and suggests that he could check with his marketing team for options.

The International Responsibility of States for

AI-enabled Space Activities Stefan-Michael Wedenig, 2025-12-22 Artificial Intelligence AI has permeated our every day lives What once was solely a human task has now been taken over by AI May it be credit card approvals customer support financial transactions medical imaging or software development there is AI working behind the scenes Outer space historically always amongst the most developed domains has not remained untouched for long and space applications have started to increasingly rely on AI However this increase in use also leads to a myriad of legal issues particularly the issue of responsibility and liability under Article VI and Article VII of the Outer Space Treaty and the Liability Convention Our legal norms may they be domestic or international in nature are ultimately built around human behaviour and when applied to AI might not function Should damage caused by an AI enabled space object arise it proves difficult to assess the responsibility of the appropriate State party under Article VI of the Outer Space Treaty or the liability of the launching State While legal literature is primarily concerned with domestic legal issues arising from the use of AI an in depth analysis concerning State responsibility and liability for AI enabled space activities is absent Space legal literature strongly favours a view advocating for the creation of new hard law in form of new binding legal instruments or the amendment of existing law Suggestions de lege ferenda are often relied on by authors Given the inherent difficulty in creating new law or amend existing legal instruments this book proposes to look towards the lex lata and argues that the existing legal norms of State responsibility State liability and treaty law are sufficient to govern the responsibility of States for their AI enabled space activities The present research looks at these issues from a public international law perspective and proposes a solution within the lex lata
