education level will look like in the next 10 years Students are using AI everyday to complete their assignments in school Soon I feel our students will not know the actual information they are turning in assignments on but they will certainly know how to program AI to create their assignments for them I recently took an AI course as part of professional development for my school district and I discovered several different programs that will create a real nice slide presentation on any topic and you can choose your own background in 2 minutes time So asking students to put together a slide presentation to demonstrate their knowledge about a particular topic is not a worthwhile assignment for the classroom any longer in the new age of Artificial Intelligence We the educators of the new A I generation are going to have to use different techniques for classroom assignments than we have in previous years We will need to utilize assignments that can t be easily completed by A I alone and will require student demonstration of the knowledge obtained The projects in this book require active research critical thinking and creativity making them resistant to AI generated shortcuts They also encourage students to engage deeply with the complex issues surrounding the various topics in this book while providing assignment options for all types of learners Most of the assignments are individual assignments however I have also included an assortment of whole class projects as well An assortment of rubric styles is also utilized in these projects The individual projects are listed in the form of Choice Boards that you can make copies of and present to the students in paper form or you can upload to a flash drive and then to your course webpage Canvas module or Google classroom The individual assignments come with Objectives Assignment Description Components and a Rubric for grading In addition I have put together Cultural Assignments to help engage students in learning about the culture where the language they are learning is spoken I have included cultural projects for Spanish French and German classes in this book I hope the projects in this book help to make your job a little easier this school year while at the same time bringing more creative engagement to the study of language to your students
