Nithya, The book Changing Landscape of Education is a comprehensive collection of current research and perspectives on the significant impact of artificial intelligence digital literacy and creative teaching methods on education The book consists of 42 chapters written by renowned professors scholars and educators These chapters cover a broad range of subjects including the incorporation of artificial intelligence in educational settings the development of digital literacy and the obstacles and advantages of inclusive education in the digital era This book explores the complex aspects of contemporary teaching approaches the significant impact of MOOCs and the crucial role of open educational materials It includes contributions that examine topics such as the future of academic leadership the use of gamification in assessment and the crucial role of social emotional learning This book is an indispensable resource for educators policymakers and researchers who are working to understand and influence the future of education in the 21st century

Research Methodology in Bioscience and Biotechnology Kian Mau Goh,2023-07-28 This monograph offers a comprehensive guide to good research practices and mindsets covering a wide range of topics across 8 chapters Readers will find numerous themes and strategies that can help them develop their research skills and achieve their objectives from effective proposal writing to stress management and upskilling This book explains the purpose process tips and mistakes of writing proposals theses articles and reviews in clear and straightforward language allowing readers to develop good research plans By applying the advice and insights offered in this book students and researchers can improve the quality of their work cultivate research integrity and develop good publication plans write well and reduce rejection rates Research outputs will be more likely to be of high quality if students and researchers are encouraged to cultivate these pieces of advice The focus of the book is not solely on the outcomes of research Rather it also delves into mindset habits adaptability time management stress management recent tools for upskilling planning and execution Throughout the book the author seeks to instill a growth mindset in the readers encouraging them to develop positive research habits and behaviors KPIs particularly publications shall not be used as a reason to erode research integrity and ethnicity therefore plagiarism self citation falsifying data exaggerating findings authorship in publications the use of AI tools CRediT and COPE are discussed This book contains interviews with high profile researchers top management at institutions policy advisers etc whose opinions and advice the readers will find valuable Overall this all in one guide is an essential resource for postgraduate students post doctoral fellows and academics who are struggling to find a survival strategy in the rapidly changing research environment The book assists readers in developing right mindset planning their research and publications and in achieving their predetermined objectives

Survival Guide for Early Career Researchers Dominika Kwasnicka,Alden Yuanhong Lai,2022-11-08 Navigating research careers is often highly challenging for early career researchers ECRs in the social sciences The ability to thrive in research careers is complex and requires soft people and

management skills and resilience that often cannot be formally taught through university coursework. Written from a peer perspective, this book provides guidance and establishes emotional rapport on topical issues relevant for ECRs in academia and industry. The authors are ECRs who have been successful in navigating their careers and they seek to connect with readers in a supportive and collegial manner. Each chapter includes elements of story telling and scientific thinking and is organized into three parts: 1. a personal story that is relevant to the topic; 2. key content on professional and personal effectiveness based on evidence in the psychological, sociological, and/or management sciences; and 3. action points and practical recommendations. The topics covered are specifically curated for people considering undertaking research careers or already working in research, including:

- Work Hard, Snore Hard: Recovery from Work for Early Career Researchers
- Networking and Collaborating in Academia
- Increasing Your Scientific Impact and Having Fun in the Process
- Accelerating Your Research Career with Open Science
- Engaging with the Press and Media
- Make Your Science Go Viral
- How to Maximize the Impact of Your Research
- Exploring the Horizon
- Navigating Research Careers Outside of Academia
- Thinking like an Implementation Scientist
- Applying Your Research in Practice

Survival Guide for Early Career Researchers summarizes relevant evidence-based research to offer advice in strategic but also supportive ways to ECRs. It is an essential go-to practical resource for PhD students, postdoctoral fellows, and junior faculty. This book will also benefit senior researchers who are serving as mentors or delivering professional development programs, administrators, and educators in institutions of higher learning and anyone with an interest in building a successful research career.

Words And Their Directions Dr. Henry Garrett, 2023-02-01

In this research book, there are some research chapters on *Words And Their Directions*. With researches on the basic properties, the research book starts to make *Words And Their Directions* more understandable. Some studies and researches about neutrosophic graphs are proposed as a book in the following by Henry Garrett, 2022, which is indexed by Google Scholar and has more than 2498 readers in Scribd. It is titled *Beyond Neutrosophic Graphs* and published by Ohio E publishing Educational Publisher, 1091 West 1st Ave, Grandview Heights, Ohio 43212, United States.
