Indigenous Teaching Disciplines and Perspectives for Higher Education Kgari-Masondo, Maserole

Christina, 2025-03-28 Literature indicates that sociolinguists and educationists often claim multilingual practice and Africanizing and Indigenizing education will jeopardize national unity and social cohesion. Such claims delay the implementation of decolonization policies and the transformation of the curriculum under false assumptions. However, research reveals many Indigenous students struggle with higher educational content which is often presented through languages that are unfamiliar to them. This implies that there is a need to uncover resources that can assist in necessitating the implementation of Indigenous education globally and that all multilingual strategies in education must be based on quality mother tongue illustrative content as its foundation. As a result, further research on the subject is necessary to enhance teaching strategies that reach all Indigenous students. *Indigenous Teaching Disciplines and Perspectives for Higher Education* illustrates the need for the implementation of a decolonized teaching and learning curriculum with integrated resources as models. It explores how to improve Indigenous knowledge content and teaching methods. Covering topics such as cultural identity, African research methodology and Indigenous media, this book is an excellent resource for teachers, policymakers, school administrators, researchers, scholars, academicians and more. *Managing Innovation Inside*

Universities Randolph Hall, 2024-06-10 This book offers guidance on capturing the creative forces of the faculty staff and students at universities. Given their unique and central role in America and the world, it examines how university research, learning and service can be integrated to address the needs of society as it is both enabled and changed by technology. In turn, the book assesses the challenges and opportunities for universities to be more successful and impactful through innovation, viewing universities as integrated systems. It demonstrates how change can occur both within the knowledge economy and because of innovations within it. In doing so, the book provides insights into how universities can prosper and lead in a world that is constantly changed by the innovations that universities and industry jointly create. The book serves as a guide for higher education policymakers, funders, donors, board members, stakeholders and leaders, chairs, deans, provosts, presidents through its systematic vision for university innovation and service to society. It will also benefit researchers studying innovation in organizations, illustrating how systematic approaches arising from management science and operations research can be used toward positive change. Lastly, strategic partners in industry, government and foundations seeking opportunities for partnerships and collaboration with universities will also find it useful. **Love the Journey to**

College Jill Madenberg, Amanda Madenberg, 2017-08-01 Jill Madenberg draws upon her 20 plus years of counseling experience while her daughter Amanda, a student who just recently went off to college, adds tips and personal stories. Whether you are wondering how to choose high school classes and activities, create a realistic college list, get the most out of a campus visit or maintain a positive and healthy attitude, *Love the Journey to College* will help you make educated decisions.

throughout the process and show you how to do it with a smile As the daughter of an experienced college counselor Amanda Madenberg has been visiting colleges for as long as she can remember on family vacations weekend road trips and school holidays Even at a young age she took interest as her mom spoke with tour guides admissions counselors and students on campus to get a feel for life at a particular school Most importantly Amanda greatly enjoyed her own college application process from visiting campuses to writing supplemental essays Writing as both a typical high school student and as the daughter of a college counselor Amanda lends a unique and entertaining perspective to Love the Journey to College
