Only Humans Need Apply Thomas H. Davenport, Julia Kirby, 2016-05-24

An invigorating, thought-provoking, and positive look at the rise of automation that explores how professionals across industries can find sustainable careers in the near future. Nearly half of all working Americans could risk losing their jobs because of technology. It's not only blue-collar jobs at stake. Millions of educated knowledge workers—writers, paralegals, assistants, medical technicians—are threatened by accelerating advances in artificial intelligence. The industrial revolution shifted workers from farms to factories. In the first era of automation, machines relieved humans of manually exhausting work. Today, Era Two of automation continues to wash across the entire services-based economy that has replaced jobs in agriculture and manufacturing. Era Three and the rise of AI is dawning. Smart computers are demonstrating they are capable of making better decisions than humans. Brilliant technologies can now decide, learn, predict, and even comprehend much faster and more accurately than the human brain, and their progress is accelerating. Where will this leave lawyers, nurses, teachers, and editors? In *Only Humans Need Apply*, Thomas Hayes Davenport and Julia Kirby reframe the conversation about automation, arguing that the future of increased productivity and business success isn't either human or machine. It's both. The key is augmentation: utilizing technology to help humans work better, smarter, and faster. Instead of

viewing these machines as competitive interlopers we can see them as partners and collaborators in creative problem solving as we move into the next era The choice is ours **Directory** ,2010 *Benn's Media* ,2006 *The American Interest* ,2009 ENR ,2008 American Photography ,2009 Presents the winning images from the annual competition **Sight and Sound** ,2001 **IEEE Membership Directory** Institute of Electrical and Electronics Engineers,2001 Major Information Technology Companies of the World ,2009 Reading with a Purpose ,2008 *Expanded Abstracts with Biographies* ,2004 **Martindale Hubbell Law Directory** Martindale-Hubbell,2003-12 **The Architects' Journal** ,2006-04 **Managing Gigabytes : Compressing and Indexing Documents and Images** Ian H.
