not only on what works in the classroom but why Written by an expert author team and linked to the early career framework this is essential reading for all trainee and early career teachers across a wide range of educational settings *Handbook of Research on Teaching With Virtual Environments and AI* Panconesi, Gianni, Guida, Maria, 2021-02-19 The increasingly pervasive use of digital technology has catapulted society into an interconnected world where the natural boundaries between humankind and machine virtual and real individual and community have become less perceptible As individuals interact with different digital technologies they must build a digital intelligence which must be further cultivated as it is a key competency for the future of school and work Digital intelligence includes understanding the mutual strengths between people and technology as well as developing an awareness in the use of digital tools in order to avoid common threats such as cyberbullying addiction to video games techno stress and more As adolescents continue to engage with virtual reality and 3D virtual worlds where the online and offline overlap and coincide it is important to build this intelligence as well as utilize these technologies to promote successful learning The *Handbook of Research on Teaching With Virtual Environments and AI* explores the new personalized educational opportunities that are available with digital technology and virtual environments that can be used within education This book focuses on the use of these tools and how to navigate the use of new technologies such as AI and virtual environments for educational practices While highlighting topics such as virtual worlds game based learning intelligent tutoring augmented reality and more this book is ideal for teachers administrators technologists educational software developers IT specialists practitioners researchers academicians and students interested in how virtual environments and AI are being implemented in teaching practices *AI in Learning: Designing the Future* Hannele Niemi, Roy D. Pea, Yu Lu, 2022-11-26 AI Artificial Intelligence is predicted to radically change teaching and learning in both schools and industry causing radical disruption of work AI can support well being initiatives and lifelong learning but educational institutions and companies need to take the changing technology into account Moving towards AI supported by digital tools requires a dramatic shift in the concept of learning expertise and the businesses built off of it Based on the latest research on AI and how it is changing learning and education this book will focus on the enormous opportunities to expand educational settings with AI for learning in and beyond the traditional classroom This open access book also introduces ethical challenges related to learning and education while connecting human learning and machine learning This book will be of use to a variety of readers including researchers AI users companies and policy makers **Unfinished Business** Paula Egelson, C. Steven Bingham, Barbara B. Howard, 2024-09-01 *Unfinished Business* A Regional Education Laboratory Retrospective on School Improvement is authored by education professionals formerly employed at SERVE one of the ten US federally funded education research and development laboratories SERVE S region included the following southeastern states Alabama Florida Georgia Mississippi North Carolina and South Carolina The school improvement recollections found in this book are supported by contemporaneous data collected for research and evaluation as well as literature interviews

and evidence from former clients and collaborators Each of the chapter authors wrote about a school improvement initiative in which they led or participated in developing Compared to the other nine labs SERVE was heavily field based SERVE s projects and publications focused on school improvement research policy and professional development The work was typically launched in a spirit best described as emergent design Building on extant research and best practice potential clients across the six state region were approached with ideas for educational interventions and evidence to support theories of action It is underscored that improving America s public schools teachers and school administrators is a continuous process involving difficult work It is hoped that this book will offer suggestions to educators about how to implement school improvement including what works and what doesn t and how initiatives can evolve positively over time

ENDORSEMENTS

This retrospective on the work done by the SERVE lab serves to underscore the important role education laboratories can play in helping schools improve the systems and processes supporting more equitable learning opportunities and higher student achievement As the authors indicate the work of school improvement is never finished hence it follows that continually trying out well grounded interventions and examining their impacts on leadership teaching and learning is essential to moving improvement science forward Betty Fry Southern Regional Education Board School improvement work needs to be an all hands on deck effort that engages teachers administrators students parents and guardians and stakeholders in meaningful co ownership of helping schools be successful for all students Unfinished Business seeks to examine the work of educational leaders and organizations who have been immersed in extended efforts to both understand and meet the various challenges of educating students By including voices with rich experiences and perspectives and highlighting steps taken to realize successes this book provides insights and lessons learned to reflect upon in considering next steps Bill Sterrett Baylor University What an outstanding book based on thoughtful reflections of practitioners working on improving schools If readers want to get an understanding of federally supported research and development laboratories this is an excellent book on lessons learned Unfinished Business offers important technical concepts in practice such as stakeholder involvement emergent designs interventions implementation sustainability and organizational culture to cite a few but also insightful lessons on results oriented distributed leadership A must read for leaders across the board local state and federal educational agencies Marco Mu oz Jefferson County Schools KY
