The background is a split landscape: the left side shows a steep, snow-dusted mountain slope, and the right side shows a deep blue ocean with white-capped waves. The sky is filled with soft, white clouds. A semi-transparent white rectangular box is centered over the image, containing the title text.

*Pursuing Social Justice Agendas in Caribbean Higher Education* Talia R. Esnard, 2024-09-05 This book offers a treatment of social justice and higher education within small island developing states like the Caribbean. This is a timely exploration of some of the global, local, structure, actor, policy, practice debates that connect directly to the promise and the challenges of pursuing social justice agendas within and beyond Caribbean institutions of higher education. In this book, the key points of examination are the i) changing patterns within the global higher education landscape, emerging mandates for university systems, ii) the perspectives and challenges for diverse student and staff populations, and iii) the ways in which these collectively impact social justice agendas within institutions of higher education. The contextualization and politicization of these issues within the broader discourse of small island developing states deepens the understanding of the prospects and challenges of addressing social injustices within the contemporary landscape, but with some re-engagement of existing conceptions and theorizations related to inclusivity, diversity, equity, ontology, coloniality, postcolonial, and critical race theory to inform how actors within these institutions can strategically respond. example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now
