Surveillance Education Nolan Higdon, Allison Butler, 2024-08-02

Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher education students

teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education **PC AI. ,2001 The Ai Toolkit for Teachers Made Easy** Hattie Washington,2025-07-30 THE AI TOOLKIT FOR TEACHERS MADE EASY is your clear supportive guide to getting started no tech expertise required Are you overwhelmed by the rapid pace of technology and not sure where to start with AI in your classroom Do you wonder how to use AI practically to save time personalize learning and ensure every student succeeds Are you worried about student privacy ethical concerns or whether you have the skills to make AI work for you If you answered yes to any of these you re not alone Teachers everywhere are seeking genuine actionable strategies not hype or jargon to make AI a practical and positive force for their students Here s just a glimpse of what s inside 10 simple classroom tested AI strategies you can use tomorrow no technical background required A curated list of the top 7 AI tools for teachers with practical examples for every grade and subject Step by step walkthroughs for integrating AI into lesson planning grading and differentiated instruction Personalization made easy How to adapt AI tools for students with diverse needs gifted struggling ELL and more The 5 most common AI myths in education debunked so you can move forward with confidence A clear framework for ethical AI use privacy bias and student data security Quick start guides for creating engaging AI powered assignments and assessments AI for time management Automate routine tasks and reclaim precious planning time How to measure and track the real impact of AI on student learning outcomes Cost saving tips The best free and low cost AI resources for schools on any budget A roadmap for blending AI with traditional teaching keep your classroom human and connected Visionary insights What s next for AI in education and how to prepare your students for a tech driven world and more THE AI TOOLKIT FOR TEACHERS is budget conscious featuring plenty of free and low cost tools and focuses on practical solutions to real classroom challenges This toolkit will empower you to embrace AI enhance learning and prepare for the future Ready to save time personalize learning and empower every student to SUCCEED Make AI your Partner TODAY Encyclopedia of Artificial Intelligence Stuart Charles Shapiro,David Eckroth,1987 **Documentation Abstracts** ,1995 *Fundamentals of Human Resource Management* Susan L.
