for qualifying textbook adoptions **The Doctorate Blueprint** Alessio Malizia,2025-08-05 The doctorate process can seem complicated and daunting in a young academic's career. Whether you are starting your doctoral studies or planning your next steps, this guide offers clear, actionable advice for success in academia and beyond. The Doctorate Blueprint is a practical guide designed to help graduates and young academics in science and engineering navigate the complex journey of earning a PhD. The guide takes a comprehensive view of the doctorate process and covers all aspects from understanding research and choosing the right methods to writing a dissertation and getting published. The book also provides essential tools and advice on career planning, including how to write grant proposals and run a research lab. It serves as an essential companion for those beginning their doctoral journey, offering a clear roadmap from initial research to career planning beyond the PhD, with a focus on PhD candidates and advice for early career academics with little to no experience supervising students.

Innovative Project Management with FIDIC Contracts Adriana Spassova,2023-12-05 This book provides comprehensive guidance for the implementation of the legal requirements of FIDIC contracts with a detailed application of modern project management principles. It demonstrates that the FIDIC suites for works and services contain many tools for good project management which can complement the innovation needed today to guide sustainable development. The author's experience in construction management, construction law, and the application of FIDIC contracts as a FIDIC engineer, a procurement claims consultant, and a FIDIC accredited certified adjudicator and trainer underpins this unique and much-needed book linking FIDIC contract management with project management practices and concepts. It is structured around project management knowledge areas and details not only the FIDIC works contracts Red, Yellow, Silver 2017, Reprint 2022, Emerald 2019, Gold 2008, and Green Book 2021, but also the project management requirements of the contract between the Employer and Engineer White Book 2017 and the FIDIC supply chain contracts and explains how these all interface in project governance. Linking the project management knowledge areas from the PMBOK and its Construction Extension with the FIDIC Body of Knowledge (FBOK), the book provides recommendations for integration of best practice and innovations. It illustrates these processes with 54 flowcharts and 16 case studies, as well as a railway scenario demonstrating the application of the book's recommended procedures. This will be an invaluable source of practical guidance for employers, contractors, and engineers responsible for procuring and managing construction projects. It provides useful insight for technical, legal, and financial experts on the management of processes, contracts, and digital tools with recommendations on how to tailor and use the FIDIC contracts for project success.
