Patricia A. Farrell, Ph.D., 2025-10-20 In a world of sanitized news and algorithm-driven echo chambers, Dr. Patricia A. Farrell delivers the authentic insights our society desperately needs. Drawing from over thirty years as a licensed psychologist, Alzheimer's researcher at Mt. Sinai Medical Center, and Social Security Disability consultant, she presents 70 compelling chapters that challenge conventional wisdom and reveal hidden truths about health, psychology, and modern life. What you'll discover: Why your toothpaste may contain deadly neurotoxins and has for 50 years. How the air you breathe could be quietly fueling dementia. The Japanese walking secret that's more powerful than medication for depression. Why your Monday anxiety literally changes your body for weeks. How cursive handwriting unlocks creativity in ways computers cannot. The hidden dangers of mental health chatbots that are harming vulnerable users. Why food timing may be more important than what you eat. How inflammation is the real culprit behind mental health disorders. Dr. Farrell doesn't shy away from uncomfortable subjects others prefer to ignore. From the disturbing rise of the manosphere targeting young boys to the pseudoscience of conversion therapy, from AI workers trapped in digital factories to the secret lives of hidden predators, she exposes realities that traditional discourse won't touch. But this isn't just about problems. Unfiltered Redux offers practical solutions: simple isometric exercises for mental wellness, the Crumb Method for creative writing, evidence-based strategies for managing dementia, sundowning, and breakthrough research on how your aging brain actually retrofits itself for resilience. Perfect for readers who question mainstream narratives about health and psychology. Want evidence-based insights from a seasoned professional? Seek authentic information beyond social media soundbites. Are you ready to confront challenging truths about our society? Dr. Farrell combines rigorous scientific research with real-world clinical experience, delivering insights that could
