Artificial Intelligence in Vocational Education and Training Selena Chan, 2025-05-30 This book details a series of studies across several levels of learning and vocational education and training VET discipline areas In the main the advent of natural language AI chatbots exemplified by ChatGPT has caused the educational sector to take on a defensive stance Both schools and the higher education sector are engaged in an on going arms race to prevent learners from using AI to augment assessments Therefore there has been a focus on plagiarism prevention rather than to better understand the potentialities for utilizing AI to support better learning This book explores the collaborative development and planning between educational developers learning designers and teachers to design learning activities which could leverage off various artificial intelligence AI platforms In doing support is provided for effective learning to be undertaken with an emphasis on the learning and application of critical thinking skills The studies presented through the volume describe the integration of AI literacy to support learners in evaluating the relevance and efficacy of AI tools and platforms and to understand how to best utilize these for specific purposes This book also synthesizes a framework for the introduction selection and implementation of AI into the VET curriculum It showcases recommendations and guidelines to inform the future integration of AI tools platforms into the VET curriculum

Communities' Sustainable Experiences Salvatore Di Dio, 2024-06-24 THE TRUE DIMENSION OF CITIES IS NOT SPACE BUT TIME Konstantinos Doxiadis This shift from the spatial dimension to that of time places the focus on the individual s scale of perception How individuals spend their time shapes and infuses our environments with meaning influencing social dynamics and cultural values The Next Generation EU project exemplifies this shift by integrating lifestyle and environmental sustainability into urban planning The goal is to facilitate a just transition to a circular economy redefining not only the physical layout of cities but also the lived experience of its citizens within these evolving spaces The evolution from the Citizens Sustainable eXperience to the Communities Sustainable eXperience in the interdisciplinary research funded by the European Union underscores a significant progression from individual to collective experience UX rooted in human centered design focuses on optimizing products and

environments for personal use and satisfaction CX expands these principles into the realm of more than human centered design where the focus extends beyond individual users to include wider community interactions and ecosystems Therefore the shift from UX to CX in urban planning and design is profoundly ethical It calls for a paradigm that prioritizes collective well being and sustainable development inclusivity and cooperation *We Can Teach That* Ewa Dziedzic-Elliott,2024-11-28

Information literacy is a complex subject that finally arrived at the doorstep of school libraries For decades academic researchers have been trying to capture the essence of information literacy its educational cognitive and civic value The collection of book chapters offered in *We Can Teach That* is a handbook that can be used as an inspiration for teaching various types of literacy visual digital multicultural health and more The book asks important questions When do we start teaching information literacy How do we teach it How does it affect our students at their education level How does it prepare them for their post high school adult life Does it impact their transition to college or career Dziedzic Elliott and her collaborators provide a range of best practices and concepts that inspire thinking about teaching information literacy at all levels Although written with school librarians in mind the book can be easily adapted by teachers school administrators and even public librarians who are looking to incorporate information literacy elements in their daily practices The book challenges the reader to rethink what they know about digital or tech literacy breaks some stereotypical concepts about multicultural literacy and highlights the importance of literacies even in adulthood **Entrepreneurship** Andrew
