Sacred Borders David Holland, 2011-02-02 Why an exasperated Jonathan Edwards asked can t we be contented with the canon of Scripture Edwards posed this query to the religious enthusiasts of his own generation but he could have just as appropriately put it to people across the full expanse of early American history In the minds of her critics Anne Hutchinson s heresies threatened to produce a new Bible Ethan Allen insisted that a revelation which spoke to every circumstance of life would require a Bible of monstrous size When the African American prophetess Rebecca Jackson embarked on a spiritual journey toward Shakerism she dreamt of a home in which she could find multiple books of scripture Orestes Brownson explained to his skeptical contemporaries that the idea drawing him to Catholicism was the prospect of an ever enlarging volume of inspiration Early Americans of every color and creed repeatedly confronted the boundaries of scripture Some fought to open the canon Some worked to keep it closed *Sacred Borders* vividly depicts the boundaries of the biblical canon as a battleground on which a diverse group of early Americans contended over their differing versions of divine truth Puritans deists evangelicals liberals Shakers Mormons Catholics Seventh day Adventists and Transcendentalists defended widely varying positions on how to

define the borders of scripture Carefully exploring the history of these scriptural boundary wars Holland offers an important new take on the religious cultures of early America He presents a colorful cast of characters including the likes of Franklin and Emerson along with more obscure figures who confronted the intellectual tensions surrounding the canon question such as that between cultural authority and democratic freedom and between timeless truth and historical change To reconstruct these sacred borders is to gain a new understanding of the mental world in which early Americans went about their lives and created their nation

Word and Power Gareth W. D. Stewart,2015-02-16 Historically the Reformed and Charismatic streams have seemed to be almost mutually exclusive In recent years this exclusivity has been being challenged by a new generation of Reformed thinkers This work aims at considering the contribution of John Wimber the late leader of the Vineyard Churches

to contemporary theological reflection within the Reformed tradition Taking into account John Wimber's unique theology of the radical middle which is somewhere between Pentecostal and Evangelical this book asks whether Wimber may be a possible alternative source for the contemporary Reformed Churches as they approach ministry and mission in the twenty first century Written from a confessional Presbyterian context in Northern Ireland Word and Power places Wimber in his theological context and asks whether Wimber's view of power evangelism discipleship formation and ministry training might be a model that Reformed Churches and Presbyterians in particular could adopt for their ecclesiology today

Christianity and the West Craig Steven Titus, 2009 Western culture and art were not born of unknown parents Christianity while receiving its mother tongues and its first canonical texts within Hebrew and Greco Roman civilizations has provided its own major contributions to the art and culture of the last two millennia In this volume scholars of international reputation clerics and lay Catholic and Protestant have reflected on how Christians have dialogued with diverse cultures and religions even as they forged directions unique to the Gospel The contributors of Christianity and the West scrutinize past achievements in order to face the postmodern secularization of western society and the globalization of communication trade and travel that claim a right to experimentation free from long standing values and detached from communities where the quality of culture and art makes a difference It is argued that the creative manifestations of culture express the genius of human agents authors and artists but they find their acid test in relationship with the flourishing of human persons and society However a human social standard is assured by a divine one Culture risks becoming destructive when the aesthetic is severed from sources of faith and reason about human origins and ends In order to face this risk the present volume explores the interaction between Christianity art and culture in the West especially in fine art and architecture theatre and cinema literature and politics It demonstrates that Christianity has served as a living memory for humanity above all concerning the unity of the physical and spiritual dimensions that constitute the human person and culture

ABOUT THE EDITOR Craig Steven Titus is research professor at the Institute for the Psychological Sciences as well as lecturer and researcher at the University of Fribourg Switzerland He is coeditor of The Pinckaers Reader and author of Resilience and the Virtue of Fortitude both published by CUA Press He is also editor of the three volumes in the John Henry Cardinal Newman Lecture Series titled The Person and the Polis On Wings of Faith and Reason and The Psychology of Character and Virtue

John Williamson Nevin Darryl G. Hart, 2005 This biography written by a provocative prolific historian gives readers insights into Nevin's critique of the revivalist tradition and shows how it applies today Hart recovers a nearly forgotten nineteenth century theologian and demonstrates his ongoing relevance This book is extensively documented and includes a substantial bibliographical essay and an index Nevin 1803-1886 taught at Mercersburg Seminary when he wrote

The Anxious Bench 1843 and The Mystical Presence 1846 volumes dealing with revivalism and the Lord's Supper respectively The last ten years have seen a revival of interest in this theologian who was a graduate of Princeton Theological Seminary and who substituted for Hodge during his two year study leave in Europe **America, History and Life**, 2000 Article abstracts and citations of reviews and dissertations covering the United States and Canada **Evangelical Studies Bulletin**, 1995 **Book Review Digest**, 2000 The University Gets Religion Darryl G. Hart, 1999 The first sustained history of the academic study of religion at American universities The University Gets Religion Religious Studies in American Higher Education is a timely book that explores the present day implications of religious studies Protestant past BOOK JACKET **Continuing Revelation** David F. Holland, 2005 In the first half of the nineteenth century a diverse contingent of American religious figures promoted the idea of an open canon of divine revelation Transcendentalists Hicksite Quakers Mormons and Shakers defined their faith against a culture that they accused of relegating religion's defining revelations to the ancient past In this they were joined by some of the most notable characters of their generation ranging from the provocative African American prophetess Sojourner Truth to the influential theologian Horace Bushnell Powerfully wielding this heterodox doctrine these revelationists left a lasting imprint on the United States religious culture This dissertation explores the reasons why the first half of the nineteenth century proved so conducive to the notion of an open canon Focusing on ideas rather than on social or psychological explanations it argues that a confluence of conceptual trends gave the tenet of continuing revelation special currency in the antebellum era It proposes the existence of a revelatory equation which reasons that a cultural commitment to the necessity of divine revelation A when combined with a sense that the textual source of such revelation is historically distant B could both generate and justify appeals to continuing revelations C A B C This dissertation argues that antebellum Americans occupied a culture in which in response to both deistical attacks on Christianity and historically minded treatments of the Bible the A and the B variables of the revelatory equation had never been more pronounced They subsequently sustained an unusual amount of C In short antebellum Americans were living in the sum of a grand cultural equation The simplicity of this formulation however belies the intricate combination of factors in which that cultural logic was embedded The sequential progression of this society's revelatory reasoning weaved through such phenomena as the rise of common sense epistemologies conceptions of natural law the cult of domesticity and of course the Second Great Awakening In large measure to recreate the story of continuing revelation in early American thought is to reconstruct the broad contours of that thought itself Author's abstract **Current Contents. Arts & Humanities** Institute for Scientific Information, **Visions of the Future in Germany and America** Hermann Wellenreuther, Norbert Finzsch, 2001-10 Predictions about the world have the power to grip whole societies and shape the actions of many groups whether working in politics ecology or religion At the end of epochs and eras humans tend to reflect on the shape of things to come Most recently fears about the millennium bug had thousands rushing to stock up on candles and food in the weeks

before New Year s Eve Concerns about the future have been expressed differently throughout history This book explores the historical context surrounding various debates decisions and beliefs about the future in recent centuries Religious political literary and ecological visions of the future in America and Germany are addressed comparatively In particular scholars from the United States and Germany explore the meaning of eschatological and utopian thoughts pursued during the last three centuries and tackle subjects ranging from science fiction to religious radicalism utopian social experiments and visions of race relations This book delves into the hopes and fears for the future that have shaped the past and will be of interest to comparative historians as well as to historians of Europe and the United States intrigued by the subject of utopias **The**
