Faith and Well-being in Later Life Amy L. Ai,Monika Ardel,2009 According to the US Census Bureau about 40 million Americans will be age 65 or older in 2010 By the year 2040 the population of older adults in the United States US will double to about 80 million with the greatest rate of increase in those aged 85 years and older This population ageing trend is likely to parallel the increase in the incidence of disability and chronic conditions and to bring about challenges to late life well being Despite advances and popularity of science and technology over the past century national surveys have consistently recorded high rates of religious or spiritual involvement in the US especially among older persons

and disadvantaged populations In the past decade scientific investigation in the protective effects of faith on physical and mental health has surged Yet how faith factors precisely influence health related functions and well being in late life remains under investigated Clearly more comprehensive research evidence is needed to meet ageing Americans spiritual needs The chapters in this book explore common topics during the later part of life including disability declining functioning nursing home residency death and dying terminal illness heart failure major medical operation vision impairment and exercise and fitness In our interdisciplinary investigations contributors include gerontologists from various disciplines and professions i e psychology sociology social work theology public health and medicine All these empirical studies are based on social science theories To meet the needs of a broad array of various audiences they also offer some evidence based implications for practices

Organizational Dynamics ,2004 *Helping Others Help Children* T. Kerby Neill,2006 This is a particularly challenging time in the supervision of child psychotherapy The demand for mental health services for children has never been greater yet evidence is accumulating that many therapies practiced in community settings are ineffective In *Helping Others Help Children Clinical Supervision of Child Psychotherapy* T Kerby Neill examines the critical role of supervision in this survey of practices and procedures and explores promising new child therapies The book revisits child therapy for contemporary demands by presenting a cross section of supervision practices in child psychotherapy which include some of the most promising new child therapies Readers will find rich discussions on dealing with supervision of play therapy and cognitive behavioral therapy with children including techniques associated with each therapy and suggestions for the observation and training of supervisees In addition ethics in supervision and cross cultural supervision are addressed This text will empower supervisors students and practitioners to meet the challenges found in all therapeutic environments including urban mental health centers and schools Introduction PsycINFO Database Record c 2007 APA all rights reserved

An Examination of Patience and Well-being Sarah Ann Schnitker,2010 *The Science of Subjective Well-Being* Michael Eid,Randy J. Larsen,2008 This authoritative volume reviews the breadth of current scientific knowledge on subjective well being SWB its definition causes and consequences measurement and practical applications that may help people become happier Leading experts explore the connections between SWB and a range of intrapersonal and interpersonal phenomena including personality health relationship satisfaction wealth cognitive processes emotion regulation religion family life school and work experiences and culture Interventions and practices that enhance SWB are examined with attention to both their benefits and limitations The concluding chapter from Ed Diener dispels common myths in the field and presents a thoughtful agenda for future research
