Character Education Controversy And Consensus:

Character Education Anne Turnbaugh Lockwood,1997-08 Is there a difference between character education and indoctrination Are we expecting our teachers to teach morals How can educators deal with the overlapping ideologies of character education religion and ethics Lockwood has assembled a group of experts who come from research as well as practice to answer these and other questions In this series of conversations they shed welcome light on the complicated questions surrounding character education in schools You ll gain insight into the different views held by educators concerning the role of schools in handling this critical controversial issue You ll gain a clearer picture of what it means to have a character education program If you re interested in setting up a program in your school or district this book can help you answer these crucial questions What is character education Can we recognize it when we see it How can we tell if it s working Are the criticisms of character education valid

Handbook of Moral and Character Education Larry Nucci,Tobias Krettenauer,2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students In fact 80% of US states currently have mandates regarding character education However the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more

Character Education Connections for School, Home, and Community Diane Stirling,Georgia Archibald,Linda McKay,Shelley Berg,2000 This book is a clear concise holistic resource for classroom teachers with a thoughtful collection of approaches to integrating character education into daily learning and school life

Education with Character James Arthur,2003 Education with character is the latest buzzphrase but until now there s been no real consensus on some of the key issues This book addresses the gap adopting a cross disciplinary approach to the matters in hand

Character Education Through Children's Literature Sheryl O'Sullivan,2002 Discusses the use of children s and adolescent literature in the classroom for helping to develop moral behavior in students

On the Relationship Between the Moral Character of a Teacher and the Moral Development of a Student Richard D. Osguthorpe,2005

Moral Emotions and Human Interdependence in Character Education Agnieszka Bates,2021-05-23 Moral Emotions and Human Interdependence in Character Education challenges contemporary mainstream approaches to character education predicated on individualism essential virtues and generic character skills This book synthesizes perspectives from phenomenology psychology cultural sociology and policy studies into a unique theoretical framework to reveal how ideas from positive psychology emotional intelligence and Aristotelian virtues have found their way into the classroom The idealized self reliant resilient atomized

individual at the core of current character education is rejected as one dimensional. Instead, this book argues for an alternative, more complex pedagogy of interdependence that promotes students' well-being by connecting them to the lives of others. This book is an essential read for academics, researchers, postgraduate students, and school teachers interested in character education and social and emotional learning. *Bringing in a New Era in Character Education* William Damon, 2013-09-01. The educational system in the United States has ended its failed experiment with separating the intellectual from the moral. Schools from K-12 to colleges and universities are increasingly paying attention to students' values and character. But how can we ensure this new era in character education makes the right kind of difference to young people? What obstacles in our current educational system must we overcome and what new opportunities can we create? This anthology offers unique perspectives on what is needed to make character education an effective, lasting part of our educational agenda. Each chapter points out the directions that character education must take today and offers strategies essential for progress. The expert contributors reveal why relativism has threatened the moral development of young people in our time and how we can pass core values down to new generations of students in ways that will elevate their conduct and their life goals. And they show the critical importance of reestablishing student morality and character as targets of higher education's central mission. Perhaps most important, they clarify the necessity of authority in any moral education endeavor and show how it is a powerful force for developing personal freedom and building character. *Moral Development and Character Education* Larry P. Nucci, 1989. **Education, Policy and Ethics** Mike Bottery, 2000. Across the world, a number of long-term trends—globalization, marketization, managerialism—are now impacting on national education policies. Here Mike Bottery shows how paradoxically these forces are making education both more centralized and more fragmented. In this magisterial study of educational policy and practice, he shows the dangers this creates and, in response, how to create a more humane and democratic education system. [A National Study of Leadership in Middle Level Schools. Volume I](#) Jerry W. Valentine, Donald C. Clark, Donald G. Hackmann, Vicki N. Petzko, 2002. As U.S. education embarks on a new century and new millennium, a middle level of education is firmly entrenched in the organizational and programmatic operations of school systems across the country. This study, purposefully conducted at the turn of the millennium, provides important insights about the progress of middle level education, particularly in the last decade. The introduction gives a historical perspective on middle schools in the U.S.; the study design, a description of the study population and respondents, and the organization of the report. Chapter 1 provides the context and describes the environment of middle level schooling. Chapter 2 lays out the different aspects of leadership and leaders of middle level schools. Chapter 3 brings to light the educational programs and instructional practices. Chapter 4 gives comprehensive school improvement practices, professional development practices, and Turning Points recommendations. Chapter 5 presents profiles and trends of middle level schools and school leaders. An appendix contains the Phase One survey instrument for a national study of leadership in middle level schools. Contains 110
