the Scope and Truth of Theology Robert Cummings Neville, 2006-06-05 This is the first volume of Robert Cumming Neville s magnum opus *Theology as Symbolic Engagement* Neville is the premier American systematic theologian of our time His work is profoundly influenced by Paul Tillich Friedrich Schleiermacher and the American pragmatists John Dewey and Charles Sanders Pierce From Tillich he takes the notion of religion art and morality as symbol and the notion that religion is the substance of culture and culture the form of religion Thus theology is symbolic engagement with cultural forms and Neville explores the ways that such engagement occurs among various religious traditions One of the most important tasks in theology is to devise ways of testing correcting or affirming claims that we had been unable to question before This book will argue that system in theology is not merely correlating assertions but rather building perspectives from which we can render the various parts of theology vulnerable for assessment In fact one of the unique features of this book is its engagement with other religions Such dialogue has been a feature of Neville s work from the beginning *Theology as Symbolic Engagement* breaks the boundaries of systematic theology and moves away from the static character that characterizes such enterprises from Barth onward Instead Neville s book showcases the dynamic character of all theology The hallmark of this entire project is its effort to show theology to be hypothetical and to make it vulnerable to correction **Psychology and Religion**

The Drama and the Symbols Gustaf Aulén,1970 Gustav Aulen s starting point in this book is that God can only reveal himself in the form of symbols in himself he remains beyond our comprehension The symbols we use will determine our image of God A bewildering variety of such images is to be found in modern literature but the Christian image of God is inseparably linked with the drama of Christ
