Chariots And Related Equipment From The Tomb Of Tu:

Chariots and Related Equipment from the Tomb of Tut'ankhamūn M. A. Littauer, J. H. Crouwel, 1985 The six actual full sized chariots of Tutankhamun are of singular importance not only to the history of chariotry in general but to the understanding of Late Bronze Age warfare and to an intelligent interpretation of what is seen in representations The normal strictly profile character of the latter makes it impossible for them to render many proportions and details accurately The tomb of Tutankhamun is unique in the ancient orient in offering the possibility of comparing six almost complete vehicles of this period not only with one another but with chariot evidence of all categories actual representational and textual both from Egypt and from other lands Six chariots entirely or partly dismantled had been stacked in the tomb four of them in the Antechamber cleared 1922 3 and two in the Treasury 1926 7 The volume consists of a complete catalogue of the chariots themselves and their related equipment yoke saddles blinkers bridle bosses harness etc together with a re examination of comparative material found in other Egyptian tombs of the New Kingdom a section on materials and construction and a concluding summary The Florentine chariot discovered in Thebes in 1828 9 is discussed in some detail in an important appendix Chasing Chariots André J. Veldmeijer, alima Ikram, 2013-12-01 The present work is the result of the First International Chariot Conference jointly organised by the Netherlands Flemish Institute in Cairo NVIC and the American University in Cairo AUC 30 November to 2 December 2012 The intention of the conference was to make a broad assessment of the current state of knowledge about chariots in Egypt and the Near East and to provide a forum for discussion A wide variety of papers are included ranging from overviews to more detailed studies focusing on a specific topic These include philology iconography archaeology engineering history and conservation The book is of interest to scholars as well as anyone with an interest in ancient technology transportation or warfare **Historical Dictionary of Ancient Egypt** M.
