Chariots Of Fire Tanks And Tank Crews:

Chariots of Fire Philip Kaplan, 2003 The past 86 years since 1917 have seen the tank develop from a primitive experimental weapon devised to break the deadlock of trench warfare on the eastern Front into a fearsomely sophisticated machine designed to dominate the battlefield Over the same period tank crews have ceased to be a band of untrepid pioneers and have become an elite arm whose units now boast battle honours ranging from Alamein to Kursk and from Korea to the Sinai In this illustrated book Philip Kaplan tells the story of the tank's development and the men who rode into battle on board their tanks from the Somme in 1916 to the Gulf War of 1991 In doing so he draws upon the accounts of many previously unpublished veterans which vividly convey what it was like or example to drive in a British Mark II as it led an attack on a German position at Ypres in World War I or how the commander of a Tiger tank single handedly halted a British armoured thrust in Normandy in 1944 There are chapters on the Guderian the great pioneer of armoured warfare whose tanks met their match in the shape of the formidable Russian T34 The *Armor*, 2001 *The Final Whistle* Stephen Cooper, 2012-08-01 WINNER OF THE BRITISH SPORT BOOK AWARDS RUGBY BOOK OF THE YEAR This is the story of 15 men killed in the Great War All played rugby for one London club none lived to hear the final whistle Rugby brought them together rugby led the rush to war They came from Britain and the Empire to fight in every theatre and service among them a poet playwright and perfumer Some were decorated and died heroically others fought and fell quietly Together their stories paint a portrait in miniature of the entire War The Final Whistle plays tribute to the pivotal role rugby played in the Great War by following the poignant stories of fifteen men who played for Rosslyn Park London They came from diverse backgrounds with players from Australia Ceylon Wales and South Africa but they were united by their love of the game and their courage in the face of war From the mystery of a missing memorial Cooper's meticulous research has uncovered the story of these men and captured their lives from their vanished Edwardian youth and vigour to the war they fought and how they died One London club none lived to hear the final whistle Rugby brought them together rugby led the rush to war They came from Britain and the Empire to fight in every theatre and service among them a poet playwright and perfumer Some were decorated and died heroically others fought and fell quietly Together their stories paint a portrait in miniature of the entire War The Final Whistle plays tribute to the pivotal role rugby played in the Great War by following the poignant stories of fifteen men who played for Rosslyn Park London They came from diverse backgrounds with players from Australia Ceylon Wales and South Africa but they were united by their love of the game and their courage in the face of war From the mystery of a missing memorial Cooper's meticulous research has uncovered the story of these men and captured their lives from their vanished Edwardian youth and vigour to the war they fought and how they died **Chariots of the Desert** David Eshel, 1989 Traces the history of the Israel Armoured Corps from the founding of Israel in 1948 to the present and discusses their role in the Arab Israeli wars *Breaking the Mold* Kendall D. Gott, 2006 Contains five case studies from World War II

to the present war in Iraq analyzing the utility of tanks and heavy armored forces in urban combat Breaking the Mold provides an up to date analysis of the utility of tanks and heavy armored forces in urban combat The case studies in this monograph are high intensity battles in conflicts ranging from limited interventions to major combat operations As the intensity of the operation decreases the second and third order effects of using tanks in cities can begin to outweigh their utility The damage to infrastructure caused by their sheer weight and size is just one example of what can make tanks unsuitable for every mission Even during peace operations however the ability to employ tanks and other heavy armored vehicles quickly can be crucial These cases demonstrate that tanks must do more than merely arrive on the battlefield to be successful in urban combat From Aachen in 1944 to Fallujah in 2004 the absolute need for specialized training and the use of combined arms at the lowest tactical levels are two of the most salient lessons that emerge from this study When properly employed well trained and well supported units led by tanks are decisive in urban combat The reverse is also true **The**
