Charity And Community In Medieval Cambridge 1200 15:

Poverty and Charity in the Jewish Community of Medieval Egypt Mark R. Cohen, 2009-01-10 What was it like to be poor in the Middle Ages In the past the answer to this question came only from institutions and individuals who gave relief to the less fortunate This book by one of the top scholars in the field is the first comprehensive book to study poverty in a premodern Jewish community from the viewpoint of both the poor and those who provided for them Mark Cohen mines the richest body of documents available on the matter the papers of the Cairo Geniza These documents located in the Geniza a hidden chamber for discarded papers situated in a medieval synagogue in Old Cairo were preserved largely unharmed for more than nine centuries due to an ancient custom in Judaism that prohibited the destruction of pages of sacred writing Based on these papers the book provides abundant testimony about how one large and important medieval Jewish community dealt with the constant presence of poverty in its midst Building on S D Goitein's *Mediterranean Society* and inspired also by research on poverty and charity in medieval and early modern Europe it provides a clear window onto the daily lives of the poor It also illuminates private charity a subject that has long been elusive to the medieval historian In addition Cohen's work functions as a detailed case study of an important phenomenon in human history Cohen concludes that the relatively narrow gap between the poor and rich and the precariousness of wealth in general combined to make charity one of the major agglutinates of Jewish associational life during the medieval period

William of Tyre Peter W. Edbury, John Gordon Rowe, 1990 In this study the authors offer the first full scale study of William of Tyre as a historian

Celibate and Childless Men in Power Almut Höfert, Matthew Mesley, Serena Tolino, 2017-08-15 This book explores a striking common feature of pre modern ruling systems on a global scale the participation of childless and celibate men as integral parts of the elites In bringing court eunuchs and bishops together this collection shows that the integration of men who were normatively or physically excluded from biological fatherhood offered pre modern dynasties the potential to use different reproduction patterns The shared focus on ruling eunuchs and bishops also reveals that these men had a specific position at the intersection of four fields power social dynamics sacredness and gender masculinities The thirteen chapters present case studies on clerics in Medieval Europe and court eunuchs in the Middle East Byzantium India and China They analyze how these men in their different frameworks acted as politicians participated in social networks provided religious authority and discuss their masculinities Taken together this collection sheds light on the political arena before the modern nation state excluded these unmarried men from the circles of political power

Old Age in English History Pat Thane, 2000-05-11 At the end of the twentieth century more people are living into their seventies eighties nineties and beyond a process expected to continue well into the next millennium The twentieth century has achieved what people in other centuries only dreamed of many can now expect to survive to old age in reasonably good health and can remain active and independent to the end in contrast to the high death rate ill health and destitution which affected all ages in the past Yet this change is generally

greeted not with triumph but with alarm It is assumed that the longer people live the longer they are ill and dependent thus burdening a shrinking younger generation with the cost of pensions and health care It is also widely believed that the past saw few survivors into old age and these could be supported by their families without involving the taxpayer In this first survey of old age throughout English history these assumptions are challenged Vivid pictures are given of the ways in which very large numbers of older people lived often vigorous and independent lives over many centuries The book argues that old people have always been highly visible in English communities and concludes that as people live longer due to the benefits of the rise in living standards far from being burdens they can be valuable contributors to their family and friends **The**

Papal Monarchy Colin Morris, 1989-05-18 The two centuries covered in this volume were among the most creative in the history of the Church Colin Morris charts the emergence of much that is considered characteristic of European culture and religion including universities and commercial cities the crusades the friars chivalry marriage and church architecture In all these developments the Roman Church played an important and often fundamental role A re evaluation of that role is now particularly apt given the dissolution of Christendom in its old form witnessed by today's generation **King Edward II** Roy Martin Haines, 2003-05-08 Edward of Caernarfon is best known today for his disastrous military defeat in 1314 at Bannockburn where his English army was defeated by a vastly inferior Scottish force led by Robert the Bruce leading to Scottish Independence This catastrophe was one of many in a disastrous career marked by indolence vengefulness vacillation in relationships with France deranged policies at home and constitutional wrangling ultimately brought to an end by a minor insurgency led by his vindictive wife and her paramour a disaffected baron **The Commons** Roger A.

Lohmann, 1992-11-05 As diverse as the people purposes and organizations that compose it the nonprofit and voluntary sector is known by many names and has emerged in numerous forms in ancient and contemporary societies Yet the formal study of this sector is relatively new and until now scholars have struggled along with theories and language patched together from many disciplines In this ground breaking book Roger A Lohmann offers a fresh integrated vision of nonprofit organizations and voluntary action providing a new way for scholars practitioners and the public to view and communicate about this complex and dynamic arena of human enterprise Lohmann's idea of the commons encompasses the wide range of organizations in the nonprofit and voluntary action sector from large formal institutions to small community based support groups He reveals how diverse and disparate organizations within the sector some with seemingly conflicting purposes all share the basic characteristics of a commons including free and uncoerced participation a common purpose and shared resources and a sense of fairness and mutuality among participants Based on this insight Lohmann sets forth a vigorous theoretical framework for understanding and describing the social economic and political structures and processes that stimulate the growth of non profit organizations and encourage voluntary action **The Patrons and Their Poor** Debra Kaplan, 2020-08-14 A pregnant mother a teacher who had fallen ill a thirty year old homeless thief refugees from war torn

communities orphans widows the mentally disabled and domestic servants What this diverse group of individuals mentioned in a wide range of manuscript and print sources in German Hebrew and Yiddish had in common was their appeal to early modern Jewish communities for aid Poor relief administrators confronted with multiple requests and a finite communal budget were forced to decide who would receive support and how much and who would not Then as now observes Debra Kaplan public charity tells us about both donors and recipients revealing the values perceptions roles in society and the dynamics of power that existed between those who gave and those who received In *The Patrons and Their Poor* Kaplan offers the first extensive analysis of Jewish poor relief in early modern German cities and towns focusing on three major urban Ashkenazic Jewish communities from the Western part of the Holy Roman Empire Altona Hamburg Wandsbek Frankfurt am Main and Worms She demonstrates how Jewish charitable institutions became increasingly formalized as Jewish authorities faced a growing number of people seeking aid amid limited resources Kaplan explores the intersections between various sectors of the population from wealthy patrons to the homeless and stateless poor providing an intimate portrait of the early modern Ashkenazic community

The King's Towns Lorraine Christine Attreed,2001 Its chronological scope reveals the evolution of monarchical power interfacing with the localities and sheds light on the debate concerning the New Monarchy developing across Europe This is a study about the search for identity as civic officials and townspeople learned to live with and exercise their hard won liberties

Royal Historical Society Annual Bibliography of British and Irish History Gerald K. Helleiner,1991-10 The Royal Historical Society s Annual Bibliography provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year It is divided into sections covering British and Irish history from Roman Britain to the present day and is arranged alphabetically

Guilds and Association in Europe, 900-1900 Ian Anders Gadd,Patrick Wallis,2006 This book is made up of a collection of papers from the Revisiting the livery companies of early modern London conference held in April 2000 by the CMH exploring the history of London livery companies from a variety of perspectives Employing historical and interdisciplinary approaches it examines print culture and early histories civic myths charity the family artisans mercantile elites and the control and regulation of guild and economy Contributions by Ian W Archer Matthew Davies John Forbes Ian Anders Gadd Perry Gauci

Porter,1989 The hospital today is seen as the pinnacle of medical care incorporating advanced machinery devoted staff and dedicated doctors yet it is sometimes castigated as wasteful and interventionist Even so the hospital has become central to the medical care of rich and poor alike but this was not always the case The Hospital in History casts light on what the hospital meant at different times and places over its history **Woman is a Worthy Wight** P. J. P. Goldberg,1992

British Book News ,1986 Counties and Communities Carole Rawcliffe,Roger Virgoe,Richard George Wilson,1996 This collection of twenty East Anglian essays celebrates Hassell Smith s seventieth birthday It has been written and edited by former colleagues friends and post graduate students who have been connected in various ways with his work at the Centre of East Anglian Studies at the University of East Anglia during the past thirty years They cover a wide variety of topics from the thirteenth century through to the eighteenth century and make a valuable contribution to the understanding of the history of Suffolk and Norfolk The Faithless Fiduciary James J. Fishman,2007 In recent years the nonprofit sector has been subject to numerous scandals which have tarnished its reputation and brought demands for stricter regulation It is often assumed these misdeeds reflect a recent change in the behavior of charities and of charitable fiduciaries the people who work for nonprofits or serve on their boards The reality is otherwise Chicanery involving charities is timeless The Faithless Fiduciary examines the enduring problem of opportunistic behavior by charitable fiduciaries and the inability to create an effective system of oversight or accountability for charitable assets The Faithless Fiduciary and the Quest for Charitable Accountability traces charity scandals as well as attempts to counter such behavior from the thirteenth century to the present One vehicle for examining the persistence of opportunistic fiduciary behavior is the Hospital of St Cross an almshouse founded in the twelfth century outside of the City of Winchester in Hampshire England St Cross still serves the poor and offers a contemporary visitor though unlikely to be a pilgrim on the way to Canterbury a draught of beer and some bread What is unique about this venerable charity is the recurrence of fiduciary wrongdoing by its leaders through the centuries in 1190 1304 1320 1372 1576 1696 and 1853 Crossing the Atlantic The Faithless Fiduciary examines charity scandals from the beginnings of European settlement to the present This author offers several propositions 1 a favorable attitude toward philanthropy has existed since the thirteenth century in both society in a normative sense and through the legal system s protection of charities 2 many fiduciaries regularly in almost all contexts and periods have breached their trust and 3 the attempt to regulate charities and fiduciaries largely has been ineffective The Faithless Fiduciary concludes with a proposal to make charities more accountable Jim Fishman is a good storyteller and these stories of charitable abuses over the centuries are well researched well analyzed and well told Professor Fishman s historical perspective is critically important today for anyone interested in the nonprofit sector This book is required reading for practitioners policy makers government

regulators and scholars Harvey Dale University Professor of Philanthropy and the Law at the NYU School of Law In this extraordinarily instructive and often dramatic volume Professor Fishman chronicles eight centuries of governmental efforts on both sides of the Atlantic to deal with greed and sloth on the part of charitable officers and other fiduciaries His relentless and imaginative scholarship yields an unmatched legal history of what he calls the quest for charitable accountability and at the same time a series of absorbing scandal stories from British almshouse corruption in the twelfth century to the crimes that sent United Way s chief executive to jail in 1995 The book ends with a fresh and promising proposal for the future policing of charity s faithless servants Professor John Simon Yale Law School Professor Fishman s thoroughly researched well documented history demonstrates that something must be done to protect the intended recipients of charity and the general public from the faithless fiduciary Harvard Law Review
