Charles Raven Frederick William Dillistone, 1975 *Biographical Memoirs of Fellows, VIII* Ron Johnston, 2009-12-17 Eighteen obituaries of recently deceased Fellows of the British Academy John Ackrill Maurice Beresford Malcolm Bowie Peter Brunt Norman Cohn John Crook Robert Davies David Foxon Terence Hutchison Philip Jones Michael Levey John Macquarrie Charles Moule Anthony Nuttall Alan Raitt Joseph Trapp William Watson Bryan Wilson **Darwinian Heresies** Abigail Lustig, Robert J. Richards, Michael Ruse, 2004-08-30 In *Darwinian Heresies* which was originally published in 2004 prominent historians and philosophers of science trace the history of evolutionary thought and challenge many of the assumptions that have built up over the years Covering a wide range of issues starting in the eighteenth century *Darwinian Heresies* brings us through the time of Charles Darwin and the Origin and then through the twentieth century to the present It is suggested that Darwin's true roots lie in Germany not his native England that Russian evolutionism is more significant than many are prepared to allow and that the true influence on twentieth century evolution biology was not Charles Darwin at all but his often despised contemporary Herbert Spencer The collection was intended to interest to excite to infuriate and to stimulate further work **Ambassadors of Christ** Mark D. Chapman, 2017-03-02 *Ambassadors of Christ* commemorates 150 years of theological education in Cuddesdon with a collection of substantial essays It begins with a discussion by Mark Chapman of the revival of theology and education in the early years of the nineteenth century This is followed by essays by Alastair Redfern on Samuel Wilberforce as a pastoral theologian and a revision by Andrew Atherstone of Owen Chadwick's Centenary History in the light of more recent historical research bringing the discussion up to the 1880s For the first time Ripon Hall which merged with Cuddesdon in 1975 receives a thorough and detailed historical treatment by Michael Brierley Mark Chapman then discusses the 1960s under Robert Runcie and a final chapter by Robert Jeffery deals with the theological and churchmanship issues which emerged from the merger Two marvellous sermons preached at College Festivals by Michael Ramsey and Owen Chadwick are also reproduced in appendices This special commemorative volume will appeal to past and present students as well as specialists in nineteenth and twentieth century church history and all those interested in ministerial education and spiritual formation **Scientific Theology: Nature** Alister E. McGrath, 2006-11-23 New in paperback of the first volume of McGrath's groundbreaking three volume work of Systematic Theology *A Scientific Theology* Written by one of world's best known theologians these volumes together represent the most extended and systematic exploration of the relation between Christian theology and the natural sciences yet produced Thoroughly ecumenical this will be a significant work for Catholic Orthodox Protestant and evangelical readers The work is marked throughout by a sustained and critical engagement with the history and philosophy of the natural sciences and a passionate commitment to the legitimacy of theology as an academic discipline *Nature* sets out a vision for a scientific theology in which the working assumptions of the natural sciences are critically appropriated as a theological resource It then moves on to deal at

considerable length with the crucially important question of the status of nature which has rarely been given the serious consideration that it deserves Responding sympathetically to the growing consensus that nature is a socially mediated concept McGrath sets out an approach to nature that establishes it as a theologically legitimate notion and explores its positive and constructive role within a scientific theology **Theological Studies** ,1975 **Essays on Orthodox Christianity and Church History** Charles Ashanin,1990 **The SPCK Handbook of Anglican Theologians** Alister E.
