Charles V:

The History of the Reign of the Emperor Charles V. William Robertson, 1769 The Emperor Charles V Martyn Rady, 2014-07-30 Charles V was elected Holy Roman Emperor and until his death in 1558 he was to play a central role on the European political stage The book is a clear introduction to the often confusing train of events in the first half of the sixteenth century It looks at Charles's response to the Protestant Reformation in Germany his efforts to retain the Netherlands under Habsburg control his struggle with France for domination over Italy and his attempts to check the expansion of Ottoman power in the Mediterranean **The Autobiography of the Emperor Charles V.** Charles V (Holy Roman Emperor), 1862

Charles V Harald Kleinschmidt, 2011-10-24 Charles V 1500 1558 King of Spain 1516 1556 and Holy Roman Emperor 1519 1556 is one of the most interesting and perplexing of the great European monarchs The son of Philip the Handsome son of the Holy Roman Emperor Maximilian I and Joanna the Mad daughter of Ferdinand and Isabella of Spain he became King of Spain at a time when the Valois and Habsburgs were involved in bitter disputes over northern European territories When he was elected Holy Roman Emperor and united to the old Habsburg lands the empire of Spain it seemed that the family might well be on the way to the universal monarchy of Charles V it may truthfully be said that he ruled an empire on which the sun never set he set out with high aims and ideals but found himself overwhelmed The demands of ruling over the greatest number of territories ever accumulated by any European ruler and the seeming impossibility of achieving peace in Europe proved too great and the disillusioned Emperor retired to the monastery of San Yuste where legend has it his ghost continues to advise the Spanish monarchs This book offers a chance to see Charles against the background of turmoil and unprecedented European expansion It is an important study in ideas of kingship and dynasty showing the last medieval emperor defending the ideals of Christian Christendom **The History of the Reign of Emperor Charles V. with a View of the Progress of Society in Europe, from the Subversion of the Roman Empire, to the Beginning of the Sixteenth Century** William Robertson, 1782 **The History of the Reign of the Emperor Charles V** William Robertson, 1792

Charles V: Duty and Dynasty Richard Heath, 2018 *Charles V Duty and Dynasty* explores the life of 16th century Europe's most influential but not best known monarch Charles inheritance from the leading dynasties of Europe has never been equalled by the age of 20 he was Holy Roman Emperor King of Spain including its American colonies and much of Italy as well as ruler of the Low Countries of his birth The book follows Charles upbringing and education his coming to power his marriage and family life made difficult by his almost constant travelling and his dealings with individuals that loom large in history Henry VIII Medici popes Martin Luther Hernan Cortes Titian It investigates his character and his fundamental beliefs what drove him on what influenced his momentous decisions the apparent contradictions and why he abdicated to spend his last years in a small Spanish monastery It also introduces the great issues of the day the challenge to the Catholic Church how monarchs could finance their ever increasing expenditure the changing nature of warfare and in particular the relations between Charles and his rival monarchs Francis I Henry VIII and Suleiman These may be characterised as a kaleidoscope of alliances sometimes with laudable aims often involving duplicitous agreements and frequently resulting in an open disregard for what had been signed It should appeal to all who are interested in the 16th century in the life of a complex individual or keen to learn lessons from the past **The History of the Reign of the Emperor Charles V ...
