## **Charles Villiers Stanford Man And Musician:**

*Charles Villiers Stanford* Jeremy Dibble, 2002 One of Britain's most gifted and productive composers Stanford 1852-1924 is perhaps best known for his church music but he was also an eminent symphonist, songwriter and author of many fine choral works. Cosmopolitan, ambitious and pragmatic, he was untiring in his efforts to advance the cause of British music during its renaissance at the end of the nineteenth century, promoting the music of his contemporaries and the many pupils he taught at Cambridge and the Royal College of Music.

*Charles Villiers Stanford: Man and Musician* Jeremy Dibble, 2024-04-09 The Anglo-Irish composer Charles Villiers Stanford 1852-1924 is often remembered as the teacher of many of Britain's first generation of twentieth-century composers. He was however a composer of great diversity. An enthusiastic composer for the theatre and opera house, he was a symphonist, songwriter and composer of church music. His national, indeed international, reputation was also reflected in the many works he wrote for some of the most prominent virtuosi of the time. Driven by a strong sense of ambition, he sought to advance the cause of British music not only as a composer but as a university professor, practical musician and conductor. Pre-eminent in the 1880s and 90s, he was eclipsed by Elgar during the Edwardian years but his creative powers continued unabated until the early 1920s. As the author of a wide range of musical works which we are now able to experience through more live performances, broadcasts and recordings, the latter has expanded exponentially since his first edition of this book. We are now aware of the composer's greater musical achievements, particularly in the province of opera. This expanded and revised edition offers new musical and biographical discussion drawing on a wider range of primary and secondary sources. It brings new insights to Stanford's life as performer, conductor and teacher, author at Cambridge and the RCM, as well as an arranger and editor of Irish folk music. Another emphasis in this revised edition is Stanford's lifelong aspiration to promote opera in England and the establishment of an English National Opera in London. Stanford's politics, particularly his opposition to Gladstonian Liberalism and to Home Rule for Ireland, also receive rightful discussion within the context of his creative output.

*Charles Villiers Stanford* Paul Rodmell, 2017-07-05 The first book devoted to the composer Charles Villiers Stanford 1852-1924 since 1935, this survey provides the fullest account of his life and the most detailed appraisal of his music to date. Renowned in his own lifetime for the rapid rate at which he produced new works, Stanford was also an important conductor and teacher. Paul Rodmell assesses these different roles and considers what Stanford's legacy to British music has been. Born and brought up in Dublin, Stanford studied at Cambridge and was later appointed Professor of Music there. His Irish lineage remained significant to him throughout his life, and this little-studied aspect of his character is examined here in detail for the first time. A man about whom no one who met him could feel indifferent, Stanford made friends and enemies in equal numbers. Rodmell charts these relationships with people and institutions such as Richter Parry and the Royal College of Music and discusses how they influenced Stanford's career. Perhaps not the most popular of teachers, Stanford nevertheless coached a generation of

composers who were to revitalize British music amongst them Coleridge Taylor Ireland Vaughan Williams Holst Bridge and Howells While their musical styles may not be obviously indebted to Stanford s it is clear that without him British music of the first half of the twentieth century might have taken a very different course

**An Imperishable Heritage: British Choral Music from Parry to Dyson** Stephen Town,2016-04-15 The rehabilitation of British music began with Hubert Parry and Charles Villiers Stanford Ralph Vaughan Williams assisted in its emancipation from continental models while Gerald Finzi Edmund Rubbra and George Dyson flourished in its independence Stephen Town s survey of Choral Music of the English Musical Renaissance is rooted in close examination of selected works from these composers Town collates the substantial secondary literature on these composers and brings to bear his own study of the autograph manuscripts The latter form an unparalleled record of compositional process and shed new light on the compositions as they have come down to us in their published and recorded form This close study of the sources allows Town to identify for the first time instances of similarity and imitation continuities and connections between the works

**Hamish MacCunn (1868-1916): A Musical Life** Jennifer L. Oates,2016-04-22 Hamish MacCunn s career unfolded amidst the restructuring of British musical culture and the rewriting of the Western European political landscape Having risen to fame in the late 1880s with a string of Scottish works MacCunn further highlighted his Caledonian background by cultivating a Scottish artistic persona that defined him throughout his life His attempts to broaden his appeal ultimately failed This along with his difficult personality and a series of poor professional choices led to the slow demise of what began as a promising career As the first comprehensive study of MacCunn s life the book illustrates how social and cultural situations as well as his personal relationships influenced his career While his fierce loyalty to his friends endeared him to influential people who helped him throughout his career his refusal of his Royal College of Music degree and his failure to complete early commissions assured him a difficult path Drawing upon primary resources Oates traces the development of MacCunn s music chronologically juxtaposing his Scottish and more cosmopolitan compositions within a discussion of his life and other professional activities This picture of MacCunn and his music reveals on the one hand a talented composer who played a role in establishing national identity in British music and on the other a man who unwittingly sabotaged his own career

**The Sea in the British Musical Imagination** Eric Saylor,Christopher M. Scheer,2015 10 Political Visions National Identities and the Sea Itself Stanford and Vaughan Williams in 1910 11 Bax s Sea Symphony 12 Close your eyes and listen to it Special Sound and the Sea in BBC Radio Drama 1957 59 Afterword Channelling the Swaying Sound of the Sea Index

*Nineteenth-century Choral Music* Donna Marie Di Grazia,2013 Nineteenth Century Choral Music is a collection of essays studying choral music making as a cultural phenomenon one that had an impact on multiple parts of society Rather than merely offering a collection of raw descriptions of works the contributors focus their discussions on what these pieces reveal about their composers as craftsmen women Major works as well as other equally rich parts of the repertoire are discussed including smaller choral works and

contributions by composers such as Fanny Mendelssohn Amy Beach Charles Stanford      **The Music of Herbert Howells**  
 Phillip A. Cooke, David Nicholas Maw, 2013 The first large scale study of the music of Herbert Howells prodigiously gifted  
 musician and favourite student of the notoriously hard to please Sir Charles Villiers Stanford Herbert Howells 1892 1983 was  
 a prodigiously gifted musician and the favourite student of the notoriously hard to please Sir Charles Villiers Stanford  
 Throughout his long life he was one of the country's most prominent composers writing extensively in all genres except the  
 symphony and opera Yet today he is known mostly for his church music and there is as yet relatively little serious study of his  
 work This book is the first large scale study of Howells's music affording both detailed consideration of individual works and  
 a broad survey of general characteristics and issues Its coverage is wide ranging addressing all aspects of the composer's  
 prolific output and probing many of the issues that it raises The essays are gathered in five sections Howells the Stylist  
 examines one of the most striking aspect of the composer's music its strongly characterised personal voice Howells the  
 Vocal Composer addresses both his well known contribution to church music and his less familiar but also important  
 contribution to the genre of solo song Howells the Instrumental Composer shows that he was no less accomplished for his  
 work in genres without words for which in fact he first made his name Howells the Modern considers the composer's rather  
 overlooked contribution to the development of a modern voice for British music and Howells in Mourning explores the  
 important impact of his son's death on his life and work The composer that emerges from these studies is a complex figure  
 technically fluent but prone to revision and self doubt innovative but also conservative a composer with an improvisational  
 sense of flow who had a firm grasp of musical form an exponent of British musical style who owed as much to continental  
 influence as to his national heritage This volume comprising a collection of outstanding essays by established writers and  
 emergent scholars opens up the range of Howells's achievement to a wider audience both professional and amateur PHILLIP
