Richard Hobson

Charles Waterton:

Charles Waterton Richard Hobson, 1867 **Charles Waterton, His Home, Habits, and Handiwork** Richard Hobson, 1867 *Charles Waterton: his home, habits, and handiwork. Reminiscences of ... nearly thirty years ... With sixteen illustrations, engraved from photographs ... by S. Smith and ... W. L. Smith, etc. (Catalogue of pictures at Walton Hall, near Wakefield, as prepared by the late Mr. Waterton.)* Richard HOBSON, 1867 *Letters of Charles Waterton of Walton Hall, Near Wakefield* Charles Waterton, 1955 **Charles Waterton** Julia Blackburn, 1989 During his lifetime Charles Waterton was famous for his eccentricities but also for his achievements and his opinions A Yorkshire landowner he was a notable Victorian figure who turned his park into an animal and bird sanctuary He was an explorer of tropical rain forests in South America and became an authority on the poisons used by the South American Indians He was also a taxidermist and published many books numbering Darwin Dickens and Roosevelt among his readers Above all he was a conservationist who fought to protect nature against the destruction and pollution of Victorian industrialization *Charles Waterton* Brian W. Edginton, 1996 Charles Waterton 1782 1865 a true English eccentric ironically self styled the most commonplace of men He talked to insects fought with snakes rode an alligator and lived like a monk He was made famous in his own lifetime by publication of his wide ranging travels and natural history observations always fun often perceptive and unfailingly individual One of his more notable contributions to science was the introduction into Europe of curare now an invaluable drug in surgical operations He turned his family estate into an extensive nature reserve long before such things were heard of and threw open his gates to the local populace as long as they understood that birds and animals had security of tenure Waterton wrote three volumes of Essays on Natural History and the best selling Wanderings in South America which has never been out of print since the first publication in 1825 He was a fearsome satirist and pamphleteer attacking prominent figures of his day both with his powerful pen and with his taxidermy skills His simple charm made a mockery of all those enemies who tried to capitalise on his human failings Unlike previous biographies this book is an unabashed celebration of his eccentricity a fond salute to a fine old English gentleman In the centenary year of the Canadian national park which is named after him the life of Charles Waterton should encourage the preservation of what remains of his kind of world and remind us of what the world has lost to insensitivity and greed Charles Waterton James Simson, 1880 Letters of Charles Waterton of Walton Hall, near Wakefield : naturalist, taxidermist, and author... Charles Waterton, 1955 **Charles Waterton Correspondence to Pliny Miles** Charles Waterton, 1852 Correspondence from English naturalist and conservationist Charles Waterton 1782 1865 to American writer Pliny Miles 1818 1865 dated June 16 1852 regarding a Boston newspaper article Miles had sent him Waterton also discusses Miles's recent visit to his estate Walton Hall writing Had the weather been fine and genial when you were here we should have had a much better opportunity of examining the haunts of the birds Waterton had built a wall around three miles of the estate for a wildfowl and nature reserve **The Strange Life of Charles Waterton, 1782-1865**

Richard Aldington, 1949 From 1782 to 1865 there lived mainly at Walton Hall in the county of Yorkshire in England a man whose name was Charles Waterton He was the Last Great Eccentric Squire Waterton was also a farmer a naturalist and such a traveler as only an Englishman can be His whole life made a pattern of odd adventure some of whose highlights were his encounters with a boa constrictor which he disposed of by a punch to the jaw with a crocodile which he rode up and down the Essequibo River and with an unfortunate donkey which he first poisoned experimentally with curare and then revived by means of a bellows Book Jacket Charles Waterton Hobson Richard, 2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Letters of Charles Waterton, of Walton Hall, Near Wakefield, Naturalist** R. A. Irwin, 1955 Charles Waterton Julia Blackburn, 1997 Charles Waterton was the first conservationist who fought to protect wild nature against the destruction and pollution of Victorian industrialisation During his lifetime he was famous for his eccentricities but also for his achievements and his opinions A Yorkshire landowner he turned his park into a sanctuary for animals and birds As an explorer he learned to survive in the tropical rain forests of South America without a gun or the society of other white men He was an authority on the poisons used by South American Indians and a taxidermist of note The huge public that read his books included Dickens Darwin and Roosevelt Since his death the memory of Waterton's personal eccentricities has flourished while the originality of his ideas and work has often suffered Using his surviving papers Julia Blackburn has redressed the balance in a biography that restores Waterton to his place as the first conservationist of the modern age Letters of Charles Waterton of Walton Hall, Near Wakefield Charles Waterton, 1955 *Letters of Charles Waterton of Walton Hall, Near Wakefield* Charles Waterton, 1955 Wanderings in South America Charles Waterton, 1895 **Audubon the Naturalist** Francis Hobart Herrick, 1917 *Third series* Charles Waterton, 1857 **Charles Waterton** Richard Hobson, 2016-05-22 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping
