**The Photograph as Contemporary Art** Charlotte Cotton, 2021-02-16 A new edition of the definitive title in the field of contemporary art photography by one of the world's leading experts on the subject Charlotte Cotton In the twenty first century photography has come of age as a contemporary art form Almost two centuries after photographic technology was first invented the art world has fully embraced it as a legitimate medium equal in status to painting and sculpture The Photograph as Contemporary Art introduces the extraordinary range of contemporary art photography from portraits of intimate life to highly staged directorial spectacles Arranged thematically the book reproduces work from a vast span of photographers including Andreas Gursky Barbara Kasten Catherine Opie Cindy Sherman Deana Lawson Diana Markosian Elle Pérez Gregory Halpern Lieko Shiga Nan Goldin Paul Mpagi Sepuya Pixy Liao Susan Meiselas and Zanele Muholi This fully revised and updated new edition revitalizes previous discussion of works from the 2000s through dialogue with more recent practice Alongside previously featured work Charlotte Cotton celebrates a new generation of artists who are shaping photography as a culturally significant medium for our current sociopolitical climate A superb resource The Photograph as Contemporary Art is a uniquely broad and diverse reflection of the field *Light and Photomedia* Jai McKenzie, 2020-09-02 Light and Photomedia proposes that regardless of technological change the history and future of photomedia is essentially connected to light It is a fundamental property of photomedia binding with space and time to form and inform new explicitly light based structures and experiences Jai McKenzie identifies light space time structures throughout the history of photomedia from the early image machines through analogue and digital image machines to the present day She proposes that they will continue to develop in the future and takes us to future image machines of the year

2039 With the use of the theories of Paul Virilio Jean Baudrillard and Vilem Flusser featuring artists including Henri Cartier Bresson Nam June Paik Yves Klein Eadweard Muybridge Martha Rosler Cindy Sherman and Michael Snow as well as their photographic images Light and Photomedia places the reader in a new history and future which although mostly overlooked by the canon of photomedia theory is an essential line of enquiry for contemporary thinking and dialogue in photography
