## **Charlotte Brontë The Self Conceived:**

Charlotte Brontë Helene Moglen, 1984 The lives of literary figures have always provided a source of fascination the tragic life of Charlotte Brontë is no different In this interpretive critical biography Helene Moglen takes for granted earlier exhaustive studies done on Brontë to produce an analysis that incorporates not only the facts of her life but also their influence upon her works Through her study Moglen seeks to examine the two dimensions that are essential to any study of Brontë the life she lived and the life she created within the pages of fiction By examining the paradoxical personal tragedy and artistic fulfillment that made up Charlotte Brontë's life Helen Moglen shows the evolution of Brontë's feminism Through Brontë's growth Moglen then is able to explore explicitly formations of the modern female psyche Considered to be a major biography fusing together the making of literature and the formation of personality Moglen offers a new critical insight into Brontë's struggle for self definition and how it can be reflected through the lives of readers more than a century later *Charlotte Brontë* Helene Moglen, 1978 *Charlotte Brontë* Helene Moglen, 1978 Charlotte Brontë Helene Moglen, 1976 *The Self in the Cell* Sean C. Grass, 2014-01-27 Michel Foucault's writing about the Panopticon in *Discipline and Punish* has dominated discussions of the prison and the novel and recent literary criticism draws heavily from Foucauldian ideas about surveillance to analyze metaphorical forms of confinement policing detection and public scrutiny and censure But real Victorian prisons and the novels that portray them have few similarities to the Panopticon Sean Grass provides a necessary alternative to Foucault by tracing the cultural history of the Victorian prison and pointing to the tangible relations between Victorian confinement and the narrative production of the self *The Self in the Cell* examines the ways in which separate confinement prisons with their demand for autobiographical production helped to provide an impetus and a model that guided novelists' explorations of the private self in Victorian fiction *Charlotte Brontë's World of Death* Robert Keefe, 2014-07-03 By the age of eight Charlotte Brontë had lost first her mother and then her two older sisters Later in a second wave of deaths her brother and two younger sisters died leaving her a sole survivor With subtlety and imagination Robert Keefe examines Brontë's works as the creative response to these losses particularly the loss of her mother Terrified and yet fascinated by death struggling with guilt remorse and a deep sense of rejection Charlotte Brontë found in art a way to come to terms with death through its symbolic reenactment In her earlier writings she created a fictional world marked by devices that allow her to control or deny death In her later works these mechanisms evolved into mature expressions of a profound psychological reality Brontë's preoccupation with death is seen in her fiction in the recurring patterns of separation and exile Keefe traces the development of these motifs in the juvenilia and the four novels *The Professor* *Jane Eyre* *Shirley* and *Villette* Unique in its emphasis on the maternal relationships in Brontë's life and art this study also explores certain aspects of her life that have often puzzled biographers **Metabiography** Caitríona Ní Dhúill, 2020-03-09 This book explores the contradictions of biography It charts shifting approaches to the writing and reading of biographies from post

hagiographical attitudes of the Enlightenment heroic biographies of Romanticism and irreverent modernist portraits through to contemporary experiments in politically committed and hybrid forms of life writing The book shows how biographical texts in fact destabilise the models of historical visibility cultural prominence and narrative coherence that the genre itself seems to uphold Addressing the fraught relationships between genre and gender private and public image and text life and narrative that play out in the modern biographical tradition Metabiography suggests new possibilities for reading writing and thinking about this enduringly popular genre **Charlotte Bronte** Helene Moglen,1976 **The Victorian Family**

Anthony S. Wohl,2016-06-17 First published in 1978 this multi disciplinary study embraces a wide selection of topics ranging from family intimacy and authoritarianism to the family as a unit for launching social reforms Subjects treated in the nine essays include the Victorian attitude to childbirth the role of the nanny the power of the upper class paterfamilias the pattern of family work and fertility and incest among the Victorian working classes The book is introduced by a critical survey of the state of family history and the need for new studies From the essays the Victorian family emerges as both a refuge from society and a springboard into it and as an important unit for the study of the repression and exploitation of women and children in Victorian society This book will be of interest to those studying Victorian history and society **The Death-ego**

**and the Vital Self** Gavriel Reisner,2003 This volume presents original views of the relationship between desire and romance It begins by looking anew at the nature of desire citing its central theoretical text as Freud's Beyond the Pleasure Principle It traces the struggle between myth and romance between the ego on its way to death and the self in search of life through close readings of poems and letters of John Keats and in detailed considerations of a series of novels including Frankenstein

Wuthering Heights Jane Eyre and Sons and Lovers **Self-Conceived Heroine of Charlotte Bronte** Asha Kaushik,2014

Charlotte Bronte has been considered by critics as the foremost authors of the nineteenth century important precursor to feminist novelists and the creator of intelligent independent heroines who asserted their rights as women long before those rights were recognized by society Charlotte Bronte novels are of high significance due to her rebelliousness against conventions her unwillingness to let her heroines bow down to conventions and for creating a social awareness and responsibility among women of that era by the power of her pen **Madness and Sexual Politics in the Feminist Novel**

Barbara Hill Rigney,1978 A greater part of the feminist movement has considered traditional psychology to be both a product and a defense of the status quo a patriarchal society Here Barbara Hill Rigney explores emerging feminist psychology by applying it to literary works by women who have depicted the relationship between madness and the female condition The result is a fascinating and illuminating exposition certain to be welcomed by students and scholars in literature and women's studies as well as those in sociology and psychology whose interests include feminism and problems of women and society Among the works Rigney considers are Charlotte Brontë's Jane Eyre Virginia Woolf's Mrs Dalloway Doris Lessing's The Four Gated City and Margaret Atwood's Surfacing all of which depict insanity in relation to sexual politics These authors portray a

patriarchal social system which in itself manifests symptoms of collusive madness in the form of war or sexual oppression and is thereby seen as threatening to female psychological survival Each of Rigney's author subjects sees her protagonist as tragically divided between male society's prescribed roles for women and a sense of an authentic self Thus emerges a pattern common to all works in which the divided self is reflected by the inevitable juxtaposition of the protagonist to a doppelgänger an insane self an extension of the protagonist who herself can be regarded as sane only by degree A return to true sanity is traced through the patterns found in the selected works Rigney explores the literary metaphor of the return of Demeter or the Amazon mother to restore the alienated female protagonists In order to begin the return from psychosis Rigney concludes they must find the mother within themselves in the form of a feminist consciousness of self worth **Victims of Convention** Jean E. Kennard, 1978 **Women & Literature**, 1979 The annual bibliography of women and literature appears in the fall issue of each volume 1975 spring 1976 English Poetry of the Victorian Period, 1830-1890 Bernard Arthur Richards, 2001 Deeply unpoetical was how Matthew Arnold described the Victorian period and many of his contemporaries would have agreed Even to later generations poetic achievement from 1830 to 1890 seems dwarfed by the great burgeoning of the novel However English Poetry of the Victorian Period demonstrates the very real diversity and richness of Victorian poetry This was the era of Tennyson the Brownings Arnold Swinburne Clough the Rossettis and Hopkins poets who not only wrote with distinctly original voices but who also reflected the deeper tensions of their time Bernard Richards balances detailed analysis of individual poets and works with a broader perspective of the poetic spirit of the age Two new chapters have been added to this revised edition on nonsense poetry and women poets He characterises the Victorian age as one of tremendous poetic wealth related to but different from the Romantic period which preceded it and the Modernist period which followed it *The New York Times Book Review*, 1976 Jane Eyre Jeannette King, 1986 A Woman's Portion Linda Hunt Beckman, 1988 **Victorians and Mystery** William David Shaw, 1990 Victorian literature according to Shaw gives rise to a wealth of questions and mysteries Addressing crises of representation in poetry fiction and nonfictional prose in light of similar crises in philosophical theological and scientific literature Shaw here examines the nature and sources of Victorian mystery **Studies in the Brontë Sisters** A.
