Charters And Custumals Of The Abbey O Holy Trinity Caen:

Charters and Custumals of the Abbey of Holy Trinity Caen Marjorie Chibnall, John Walmsley, 1982 **The Oxford History of the Laws of England Volume II** John Hamilton Baker, 2003 The Oxford History of the Laws of England provides a detailed survey of the development of English law and its institutions from the earliest times until the twentieth century drawing heavily upon recent research using unpublished materials *Women's Monasticism and Medieval Society* Bruce L. Venarde, 2018-05-31 In this engaging work Bruce L Venarde uncovers a largely unknown story of women s religious lives and puts female monasticism back in the mainstream of medieval ecclesiastical history To chart the expansion of nunneries in France and England during the central Middle Ages he presents statistics and narratives to describe growth in broad historical contexts with special attention to social and economic change Venarde explains that in the years 1000 1300 the number of nunneries within Europe grew tenfold In the eleventh and twelfth centuries religious institutions for women developed in a variety of ways mostly outside the self conscious reform movements that have been the traditional focus of monastic history Not reforming monks but wandering preachers bishops and the women and men of local petty aristocracies made possible the foundation of new nunneries In times of increased agrarian wealth decentralization of power and a shortage of potential spouses many women decided to become nuns and proved especially adept at combining spiritual search with practical acumen This era of expansion came to an end in the thirteenth century when forces of regulation and new economic realities reduced radically the number of new nunneries Venarde argues that the factors encouraging and inhibiting monastic foundations for men and women were much more similar than scholars have previously assumed **The Haskins Society Journal 31** Laura L. Gathagan, William North, Charles C. Rozier, 2020-12-18 New insights into interpretive problems in the history of England and Europe between the eighth and thirteenth centuries The articles in this volume of the Haskins Society Journal take the reader from early England to the thirteenth century from Europe to the Holy Land Chapters explore issues of Anglo Saxon social status and settlement and peasant agency in the France of King Louis IX while through a careful re examination of documentary and narrative evidence further articles offer new insights into succession crises in England and the Principality of Antioch with special attention to the role of women in the assumption of political power and its narration The record and moral horizons of both First and Fourth Crusaders also receive close attention and finally a survey of the construction of the Norman past in the French Chronique de Normandie rounds out the collection
CONTRIBUTORS Mark E Blincoe Andrew D Buck Wim de Clercq Theodore Evergates Alex Hurlow William Chester Jordan Alexandra Locking Alheydis Plassman Stuart Pracy Katherine Allen Smith Veerle van Eetvelde Steven Vanderputten Gerben Verbrugge **Making Domesday** Stephen Baxter, Julia Crick, C. P. Lewis, 2025-04-12 Making Domesday presents a fresh interpretation of William the Conqueror s survey of England made possible by a major collaborative study and a new online edition of Exon Domesday the earliest of the three original manuscripts to survive from the Domesday survey The book

addresses big questions about pre modern government written records and the use of intelligence in both senses the minds behind the planning and execution of Domesday and the information about England that Domesday gathered It characterizes Exon as the surviving part of the working papers of one of the writing offices that over a period of ten weeks in summer 1086 dealt with all seven circuits regional groupings of shires of the Domesday survey The circuit offices had the task of recasting the manorial descriptions assembled in an earlier stage of the survey into an interim form intended for further redaction as Great Domesday Book by rearrangement rewording and abbreviation A new deep understanding of the codicology and palaeography of Exon underpins every part of the analysis and offers a model of documentary production for royal government at an exceptionally early period in western Europe Part I describes and analyses each Exon text in unprecedented detail Part II places Domesday in context and in broad comparative perspective ranging across and beyond the Latin West The dual approach provides a new interpretation of Domesday and a deeper understanding of both the Domesday survey and Domesday Book It emerges that the survey was even more complex than we had dared to imagine involving the production of different kinds of text intended to meet a range of fiscal and political needs It is also clear that the survey was immediately effective transforming the politics of land in a newly conquered society Domesday has always been thought awesome as its very name shows Making Domesday contends that it was also a feat of intelligent government deployed by an aggressive and ambitious regime As such it speaks to broader concerns with the colonial domination of conquered societies through the purposeful collection of systematic statistical information

Virtuous or Villainess? The Image of the Royal Mother from the Early Medieval to the Early Modern Era Carey Fleiner, Elena Woodacre, 2016-07-14 This collection addresses royal motherhood across Europe from both the medieval and Early Modern periods including in famous and not so famous royal mothers The essays in this collection reveal the complexities and the subtleties inherent in the role of royal mothers and challenges these traditional stereotypes The volume provides a fresh re evaluation of these women from those who have been given an almost saintly status to those who struggled against contemporary chronicles and propaganda that perpetuated the stereotypes associated with bad mothers these particular images of saintliness and wickedness have persisted right into the modern era This series of intriguing case studies reveals how royal mothers were perceived by their contemporaries and explores the motivation for the ways in which they are depicted in modern popular culture Taken together with the companion volume Royal Mothers and their Ruling Children this collection sheds new light on the important and challenging role of mothers within the framework of monarchy and at the epicenter of power
