Spady, 1998-01-01 In Paradigm Lost Spady explores the important changes in culture instruction school calendars and school agenda that school leaders must make to prepare students for the next millennium despite the fact that the current system of schooling leads to institutional inertia that counters the very changes we most need to make Spady s big picture view refutes the wisdom of adhering to a system of schooling a paradigm based on a bureaucratic age culture industrial age delivery system agricultural age calendar and feudal age agenda Spady then explains how school leaders can overcome this inertia by working with staff and community members to adopt a new paradigm of schooling based on a locally developed vision of the future and what students will need to succeed in that future Career Mapping Ginny Clarke, 2011-04-30 Career Mapping guides you through the tangled expressways of career options to help you design your personalized road map to create job and career choices Ginny Clarke wrote this book with one purpose to help people like you discover the path to a rewarding work life No matter where you find yourself just starting out navigating the corporate maze launching a new business or in anticipation of retirement Career Mapping is written for you It offers case studies of
