Chateaubriand Et Rousseau:

Chateaubriand et Rousseau Charles Dédéyan, 1973 *Smith College Studies in Modern Languages*, 1924 Smith College Studies in Modern Languages ... Smith College, 1925 *Posthumous America* Benjamin Hoffmann, 2018-05-15
Benjamin Hoffmann's *Posthumous America* examines the literary idealization of a lost American past in the works of French writers of the eighteenth and nineteenth centuries. For writers such as John Hector St. John de Crèvecoeur and Claude François de Lezay-Marnézia, America was never more potent as a driving ideal than in its loss. Examining the paradoxical American paradise depicted in Crèvecoeur's *Lettres d'un cultivateur américain* (1784), the *Uchronotopia* (the imaginary perfect society set in America and based on what France might have become without the Revolution) of Lezay-Marnézia's *Lettres crites des rives de l'Ohio* (1792), and the political and nationalistic motivations behind François-René Chateaubriand's idealization of America in *Voyage en Amérique* (1827) and *Mémoires d'outre-tombe* (1850), Hoffmann shows how the authors' liberties with the truth helped create the idealized and nostalgic representation of America that dominated the collective European consciousness of their times. From a historical perspective, *Posthumous America* works to determine when exactly these writers stopped transcribing what they actually observed in America and started giving imaginary accounts of their experiences. A vital contribution to transatlantic studies, this detailed exploration of French perspectives on the colonial era, the War of Independence, and the birth of the American Republic sheds new light on the French fascination with America. *Posthumous America* will be invaluable for historians, political scientists, and specialists of literature whose scholarship looks at America through European eyes.

Rousseau and Romanticism Irving Babbitt, 1919 Tocqueville, Democracy, and Religion Alan S. Kahan, 2015. A ground-breaking study of the views of the greatest theorist of democracy writing about one of our most pressing issues. Alan S. Kahan, a leading Tocqueville scholar, shows how Tocqueville's analysis of religion is simultaneously deeply rooted in his thoughts on nineteenth-century France and America and pertinent to us today. Passion and Criminality in France Louis Proal, 1901 Impossible Individuality Gerald N. Izenberg, 1992-06-03. Studying major writers and philosophers Schlegel and Schleiermacher in Germany, Wordsworth in England, and Chateaubriand in France, Gerald Izenberg shows how a combination of political, social, and psychological developments resulted in the modern concept of selfhood. More than a study of one national culture influencing another, this work goes to the heart of kindred intellectual processes in three European countries. Izenberg makes two persuasive and related arguments. The first is that the Romantics developed a new idea of the self as characterized by fundamentally

opposing impulses a drive to assert the authority of the self and expand that authority to absorb the universe and the contradictory impulse to surrender to a greater idealized entity as the condition of the self's infinity The second argument seeks to explain these paradoxes historically showing how romantic individuality emerged as a compromise Izenberg demonstrates how the Romantics retreated in part from a preliminary radically activist ideal of autonomy they had worked out under the impact of the French Revolution They had begun by seeing the individual self as the sole source of meaning and authority but the convergence of crises in their personal lives with the crises of the revolution revealed this ideal as dangerously aggressive and self aggrandizing In reaction the Romantics shifted their absolute claims for the self to the realm of creativity and imagination and made such claims less dangerous by attributing totality to nature art lover or state which in return gave that totality back to the self

The Masters of Modern French Criticism Irving Babbitt, 1912 This volume does not criticize criticism but criticizes critics The critics examined are among the most vital and significant personalities of their time To study Sainte Beuve and the other leading French critics is to get very close to the intellectual center of the century Readers may thus follow the main movement of this thought through this period and build up the necessary background for understanding the ideas of the present day whether they continue this earlier thought or react from it The so called anti intellectualist movement can only be understood with reference to such a background it is a reaction from the dogmatic naturalism that reached its height in the second half of the nineteenth century In the end the judgment of the keen sighted few in the present will be ratified by the verdict of posterity
