Barton Palmer, 1999 This collection grows out of the Spring 1987 issue of *Studies in the Literary Imagination* Along with the original 6 essays now revised for book publication this volume adds 8 new examinations of the connections between the authors of medieval France and England The volume editor is a translator of Machaut and intimately involved in scholarly investigations that provide connections between culture and texts Framed by diverse studies that investigate the genius of the patron and the shaping role of the editor those articles serve as models both of how to study particular authors or texts and as paradigms for other researchers to follow **The French of Medieval England** Thelma S. Fenster, Carolyn P. Collette, 2017 Recent research has emphasised the importance of insular French in medieval English culture alongside English and Latin for a period of some four hundred years French variously labelled the French of England Anglo Norman Anglo French and Insular French rivalled these two languages The essays here focus on linguistic adaptation and translation in this new multilingual England where John Gower wrote in Latin while his contemporary Chaucer could break new ground in English **The French Fetish from Chaucer to Shakespeare** Deanne Williams, 2004-11-18 What was the impact of the Norman Conquest on the culture of medieval and early modern England Deanne Williams answers this question by contending that not only French language and literature but the idea of Frenchness itself produced England's literary and cultural identity Examining a variety of English representations of and responses to France and the French in the work of Chaucer Caxton Skelton Shakespeare and others this book shows how English literature emerged out of a simultaneous engagement with and resistance to the pervasive presence of French language and culture in England that was the legacy of the Norman Conquest Drawing upon theories of gender and postcoloniality this book revises traditional notions of English literary history by inserting France as a primary element in English self-fashioning from Chaucer's Prioress to Shakespeare's Henry V [Chaucer and the Roman Poets](#) Edgar Finley Shannon, 1929 *The Yale Companion to Chaucer* Seth Lerer, 2006-01-01 A collection of essays on Chaucer's poetry this guide provides up to date information on the history and textual contexts of Chaucer's work on the ranges of critical interpretation and on the poet's place in English and European literary history **The Reception of Chaucer's Shorter Poems, 1400-1450** Kara A. Utz,2002 In the nineteenth and early twentieth century German speaking scholars played a decisive role in founding and shaping the study of medieval and early modern English language and culture During this process aesthetic and literary enthusiasms were gradually replaced first by broadly comparative and then by increasingly narrow scientific practices all confusingly subsumed under the term philology Towards 1871 German and Austrian Anglicists were successful at imposing for about 30 years many of their philological discursive practices on their English speaking counterparts by focusing on strict textual criticism chronology historical linguistics prosody and literary history After World War I these philological practices were rejected in the U K and the United States because they were Made in Germany but have remained essential features of German medieval scholarship until the present day This book offers a case study of these foundational developments by investigating the reception of Geoffrey Chaucer by eminent scholars such as V A Huber W Hertzberg B ten Brink J Zupitza E Fluegel and J Koch The narrative of their nationalist scientist and self fashioning efforts is complemented by a comprehensive annotated bibliography of German Chaucer criticism between 1793 and 1948 *Chaucer and the Roman Poets* Edgar Finley Shannon,1964 **The Encyclopaedia Britannica** Hugh Chisholm,1910 This eleventh edition was developed during the encyclopaedia s transition from a British to an American publication Some of its articles were written by the best known scholars of the time and it is considered to be a landmark encyclopaedia for scholarship and literary style **The Encyclopaedia Britannica** Hugh Chisholm,James Louis Garvin,1926 The Encyclopaedia Britannica: Cal to Con ,1911
