canon of Chaucer's work and the canonical approaches to its understanding Lerer shows how the poets scribes and printers of the period constructed Chaucer as the poet laureate and father of English verse Chaucer appears throughout the fifteenth century as an adviser to kings and master of technique and Lerer reveals the patterns of subjection childishness and inability that characterize the stance of Chaucer's imitators and his readers In figures from the Canterbury Tales such as the abused Clerk the boyish Squire and the infantilized narrator of the Tale of Sir Thopas in the excuse ridden narrator of Troilus and Criseyde and in Chaucer's cursed Adam Sciveyn the poet's inheritors found their oppressed personae Through close readings of poetry from Lydgate to Skelton detailed analysis of manuscript anthologies and early printed books and inquiries into the political environments and the social contexts of bookmaking Lerer charts the construction of a Chaucer unassailable in rhetorical prowess and political sanction a Chaucer aureate and laureate

Ideas of Authorship in the English and Scottish Dream Vision Laurie Atkinson, 2024 An investigation of English and Scottish dream visions written on the cusp of the Renaissance teasing out distinctive ideas of authorship which informed

their design The fifteenth and sixteenth centuries have long been acknowledged as a period of profound change in ideas of authorship in which a transition from a medieval to a modern paradigm took place In England and Scotland changing approaches to Chaucer have rightly been considered as a catalyst for the elevation of English as a literary language and the birth of an English literary history There is a tendency however when moving from Chaucer s self professed poetic followers of this time to the philological approach associated with William Caxton and the 1532 Works to pass over the literary careers of the English and Scots poets belonging to the intervening half century John Skelton William Dunbar Stephen Hawes and Gavin Douglas This volume redresses that neglect Its close and comparative readings of these poets stimulating but critically neglected dream visions and related first person narratives reveal a spectrum of ideas of authorship four distinct engagements with tradition and opportunity united by their utilisation of a particular form It regards authorship as a topic of invention a discourse for appropriation which is available to but not inevitable in late medieval and early modern writing Overall it facilitates newly focussed study of an often obscured literary historical period one with a heightened interest in the authors of the past Chaucer Lydgate Petrarch Virgil but also an increasingly acute perception of the conditions of authorship in the present Chaucer and the Fifteenth Century (oxford History of English Literature Vol 2 Pt 1).
