Computing Services Guide to Digital Resources for the Humanities Frances Condron, Michael Fraser, Stuart Sutherland, 2001 A comprehensive reference tool in humanities computing Essays in nine disciplines describe resources and introduce the state of humanities computing Platform price system requirements and means of acquisition are noted with substantial descriptions of each project plus review citations English Literature in the Age of Chaucer Dieter Mehl, 2014-06-11 Written in an engaging and accessible manner English Literature in the Age of Chaucer serves as both a lucid introduction to Middle English literature for those coming fresh to the study of earlier English writing and as a stimulating examination of the themes traditions and the literary achievement of a number of particularly original and interesting authors In addition to detailed and sensitive treatment of Chaucer's major works the book includes chapters on his chief contemporaries such as John Gower William Langland and the Gawain poet It also examines the often underrated contribution to the English literary tradition of his successors John Lydgate and Thomas Hoccleve as well as the interesting and original work of the Scottish poets Robert Henryson William Dunbar and Gavin Douglas who also claim Chaucer as their model Apart from the narrative poetry of Chaucer and his followers the book also contains chapters on the Middle English lyric Middle English prose including Mandeville's travels the most original and imaginative writings of the Middle English mystics in particular Julian of Norwich and Margery Kempe and Thomas Malory's impressive prose compilation of Arthurian stories *Studies in the Age of Chaucer* David Matthews, 2011-01-17 Studies in the Age of Chaucer is the annual yearbook of the New Chaucer Society publishing articles on the writing of Chaucer and his contemporaries their antecedents and successors and their intellectual and social contexts More generally articles explore the culture and writing of later medieval Britain 1200 1500 Each SAC volume also includes an annotated bibliography and reviews of Chaucer related publications The Myth of Print Culture Joseph A. Dane, 2003-01-01 The Myth of Print Culture is a critique of bibliographical and editorial method focusing on the disparity between levels of material evidence unique and singular and levels of text abstract and reproducible It demonstrates how the particulars of evidence are manipulated in standard scholarly arguments by the higher levels of textuality they are intended to support The individual studies in the book focus on a range of problems basic definitions of what a book is statistical assumptions and editorial methods used to define and collate the presumably basic unit of variant This work differs from other recent studies in print culture in its emphasis on fifteenth century books and its insistence that the problems encountered in that historical milieu problems as basic as cataloguing errors are the same as problems encountered in other areas of literary criticism The difficulties in the simplest of cataloguing decisions argues Joseph Dane tend to repeat themselves at all levels of bibliographical editorial and literary history **Chaucer in Perspective** Geoffrey Lester, 1999-03 Norman Blake Professor of English Language and Linguistics at Sheffield University is known throughout the world to scholars of mediaeval English Literature He has published thirty books and 140 articles on subjects as diverse as Old Norse Old English Middle English early printed books Shakespeare Historical Linguistics Stylistics

Ma(r)king the Text Joe Bray, Miriam Handley, Anne C. Henry, 2018-12-20 First published in 2000 this volume is a unique collection of essays which draws our attention to the importance of those textual elements traditionally ignored in literary criticism These include punctuation footnotes epigraphs typography cover design white space and marginalia features which significantly affect the meaning of a literary text The first section of the book opens with a proposal for a new theory of punctuation The essays which follow are devoted to detailed interpretations of particular marks in the work of individual writers including Spenser Richardson and George Eliot The consequences of this approach to the literary text are examined in the second section of the book which begins with a debate on editorial practice and responsibility and features insights from editors Attention is drawn in particular to the special issues thrown up by dramatic texts translations and electronic editions The relationship of marks to the main text is far from subordinate and we cannot appreciate the full interpretative potential of a text without considering this The essays here compel us to assess the interaction of textual and literary meaning To mark a text is to make it **Chaucer the General Prologue Wan Network Licence for the Cd-rom** Geoffrey Chaucer, Elizabeth Solopova, 2000-05-18 **The Software Encyclopedia 2001**, 2001 *Creating the Medieval Saga* Judy Quinn, Emily Lethbridge, 2010 The essays in this book are a selection of papers delivered at the symposium Creating the Medieval Saga in Bergen 2005 The essays have been revised after discussion with respondents and other members of the audience and further refined in exchanges with the editors and the general editors of the Viking Collection since Focus at the symposium was on the ways in which editorial practices have created out of complex manuscript witnesses dating from the thirteenth to the nineteenth century a body of deceptively neat narratives the medieval Icelandic sagas **A Catalogue of Chaucer Manuscripts: The Canterbury tales** Michael C. Seymour, 1995 The second of the two volume set describes the 56 extant copies and the fragments of otherwise lost copies of the 14th century Middle English opus The most recent complete catalogue was published in 1940 Since then knowledge about them has increased considerably because of paleographical
