Rahman, Katherine A. Gordy, Shirin S. Deylami, 2022-12-02 Globalizing Political Theory is guided by the need to understand political theory as deeply embedded in local networks of power identity and structure and to examine how these networks converge and diverge with the global With the help of this book students of political theory no longer need to learn about ideas in a vacuum with little or no attention paid to how such ideas are responses to varying local political problems in different places times and contexts Key features include Central Conceptual Framework Introducing readers to what it means to globalize political theory and to move beyond the traditional western canon and actively engage with a multiplicity of perspectives Organization Focused on key topics essential for an introductory class aimed at both globalizing political theory and showing how political theory itself is a globalizing activity Themes Colonialism and Empire Gender and Sexuality Religion and Secularism Marxism Socialism and Globalization Democracy and Protest and Race Ethnicity and Indigeneity Pedagogy Each chapter features theoretical concepts and definitions political and historical context key authors and biographical context textual evidence and exegesis from the foundational texts in that thematic area a list of discussion questions and a list of resources for further reading Committed to a multiplicity of perspectives and an active engagement between the global and the local Globalizing Political Theory connects directly with undergraduate and graduate level courses in political theory global political theory and non western political thought Life Without Money Anitra Nelson, Frans Timmerman, 2011-11-07 The money based global economy is failing The credit crunch undermined capitalism's ability to ensure rising incomes and prosperity while market led attempts to combat climate change are fought tooth and nail by business as environmental crises continue We urgently need to combat those who say there is no alternative to the current system but what would an alternative look like The contributors to Life Without Money argue that it is time radical non market models were taken seriously The book brings together diverse voices presenting strong arguments against our money based system's ability to improve lives and prevent

environmental disaster Crucially it provides a direct strategy for undercutting capitalism by refusing to deal in money and offers money free models of governance and collective sufficiency Life Without Money is written by high profile activist scholars including Harry Cleaver Ariel Salleh and John O Neill making it an excellent text for political economy and environmental courses as well as an inspiring manifesto for those who want to take action **Fidel Castro Speeches: In** defense of socialism, four speeches on the 30th anniversary of the Cuban revolution Fidel Castro, 1981 Travels Paulo Drinot, 2010-09-01 Country by country historians follow the routes taken by Che Guevara on his two trips Culture and Economy in Cuba's Transition Dale Allen Bretches, 2000 across Latin America in the early 1950s Che Guevara Talks to Young People Che Guevara, 2000 Eight speeches the legendary Cuban guerilla fighter delivered between 1959 and 1964 to such groups as the First Latin American Youth Congress international volunteer work brigades and the Ministry of Industry seminar on Youth and the Revolution Closing the collection is a 1997 tribute by Fidel Castro Profiles of people and organizations a list of suggested reading photos and an index support the transcripts c Book News Inc Global Marxism Simin Fadaee, 2024-09-10 A cutting edge exploration of how Marx s ideas have been adopted and adapted by revolutionary thinkers in the Global South For much of the twentieth century the ideas of Karl Marx provided the backbone for social justice around the world But today the legacy of Marxism is contested with some seeing it as Eurocentric and irrelevant to the wider global struggle In Global Marxism Simin Fadaee argues that Marxism remains a living tradition and the cornerstone of revolutionary theory and practice in the Global South She explores the lives ideas and legacies of a group of revolutionaries who played an exceptional role in contributing to counter hegemonic change Figures such as Ho Chi Minh Kwame Nkrumah Ali Shariati and Subcomandante Marcos did not simply accept the version of Marxism that was given to them they adapted it to local conditions and contexts In doing this they demonstrated that Marxism is not a rigid set of propositions but an evolving force whose transformative potential remains enormous This global Marxism has much to teach us in the never ending task of grasping the changing historical conditions of capitalism and the complex world in which we Managing Socialism Frank T. Fitzgerald, 1990-07-26 Managing Socialism challenges the theoretical underpinnings live of Cuban Studies the elite mass perspective It offers a major reinterpretation of the revolutionary process which focuses on the rise and fall of different types of social actors at the intermediate level of Cuban society Frank Fitzgerald identifies intermediate level types the prerevolutionary middle class the old cadres who in the 1960s attained administrative positions with political credentials and the new professionals who primarily since 1970 enter these same occupations on the basis of education Fitzgerald focuses on the transitions from one type to the next and uncovers conflict cooperation patterns between the three strata of Cuban society His study offers new insight into the early exodus from Cuba the problem of scarce skills and Cuba's educational expansion Managing Socialism's previously unexplored subject matter and its challenging theoretical approach make it required reading Focusing on the relationship between social stratification and politics broadly conceived

Fitzgerald examines major changes at the intermediate level of Cuban society resulting from and in turn influencing the Cuban revolutionary process Thereby dismissing the elite mass perspective theory Fitzgerald begins his analysis with an examination of factors leading to the scarcity and misallocation of skills in the 1960s Leadership responses to this problem are then analyzed as important links to the crisis of 1970 and the emergence of new professionals The post 1970 rectification process is explored and a study conducted of the decline of the old cadres and rise of the new professionals A chapter is then given to the problem of bureaucratic centralism and typical patterns of conflict and cooperation between social types A discussion of the 1986 rectification campaign and a summary of major findings conclude Fitzgerald s provocative work
