Communism in Ambush Harun Yahya,2003 Communism is an ideology that drowned the 20th century in blood Communist dictators such as Lenin Stalin Mao and Pol Pot slaughtered 120 million people without batting an eye Most of these were civilians from their own people Tens of millions of men and women from the elderly to young people and babies in arms lost their lives to this cold hard savage ideology This book exposes the scourge of Communism and reveals the materialist philosophy and the Darwinist dogma underlying it More importantly it draws attention to a greater danger The Communist threat has not disappeared from the face of the earth Even now it is lying in wait This source of bloodshed which has cost the lives of 120 million still exists Unless its ideological underpinnings materialism and Darwinism are destroyed it will insidiously flourish under the mistaken belief that Communism is dead and reappear for fresh savagery and cruelty when the time is ripe

Art and Revolution in Latin America, 1910-1990 David Craven,2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of

the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process **The Quest for**
