Virtue Elizabeth Mensch, Alan Freeman, 1993 Fiercely committed to the separation of church and state thoroughly pluralistic largely secular Where does a society like ours find common terms for conducting a moral debate In view of the crises surrounding the issue of abortion it is tempting to answer nowhere In this timely and provocative book Elizabeth Mensch and Alan Freeman urge that we challenge the extremes of both the pro life and pro choice views of the abortion issue and affirm the moral integrity of compromise Attempting to restore a level of complexity to the discussion and to enrich public debate so that we may move beyond our current impasse the authors argue that it is essential to understand how issues of legal rights and theological concerns interact in American public debate Returning to the years leading up to Roe v Wade Mensch and Freeman detail the role of religion and its relationship to the emerging politics of abortion Discussing primarily the natural law tradition associated with Catholicism and the Protestant ethical tradition the authors focus most sharply on the 1960s in which the present terms of the abortion debate were set In a skillful analysis they identify a variety of factors that directed and shaped the debate including among others the haunting legacy of Nazism the moral challenge of the civil rights movement the God is dead discourse school prayer and Bible reading Harvey Cox's *The Secular City* the Berrigans and Vietnam the animal rights movement and the movement of the church going population away from mainstream Protestant tradition toward evangelical fundamentalism By criticizing the rhetoric employed by both the pro choice and pro life camps Mensch and Freeman reveal the extent to which forces on either side of the issue have failed to respond to relevant concerns Since Roe v Wade the authors charge public debate has seemed to concede the moral high ground to the pro life position while the pro choice rhetoric has appeared to defend an individual's legal right to do moral wrong Originally published as a special issue of *The Georgia Law Review* Spring 1991 this revised and expanded edition will be welcomed by all those frustrated by the impasse of debates so central to our nation's moral life The Christian Librarian ,1991 The New York Times Book Review ,1992-10 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback The Afterword Mike Bryan, 2003 *The Afterword* is the afterword to a best selling novel that doesn't exist It is a stunning deliriously original work of fiction about the nature of faith in the modern world The Chicago Theological Seminary Register Chicago Theological Seminary, 1991 Alumni directory issue 1859-1951 v 44 no 4 v 45 no 1 **Booklist's Guide to the Year's Best Books** Bill Ott, 1992 Jim Kobak's Kirkus Reviews ,1991 American Evangelicalism II Norris A. Haas,1993 **Hyperculture** Stephen Bertman,1998-04-30 The rampant illnesses of our society including the disintegration of the family the degradation of the environment unlimited commercialism and unrelenting stress are familiar to us all For the first time Stephen Bertman attempts to explain these disparate overwhelmingly negative phenomena with a single unifying principle that the accelerated pace of American society is eroding the essence of our most fundamental values In 1970 Alvin Toffler identified a psycho biological disease he called future shock caused by too much change in too short a time Now Bertman daringly diagnoses an even more serious condition hyperculture a chronic warping of morals and ethics caused by America s addiction to speed The treatment he argues in this book will require nothing less than a drastic slowdown we must reassert control over the technologies that now dominate us in order to insure a humane future for our children and ourselves We live according to Bertman in a society ruled by the power of now a power that gives us instant gratification even as it demands our instantaneous obedience As a result we have adapted our lives and values to match the speed of light electronic technologies that surround us But in so doing we have paid a high price in spirit and mind Cut off from the wisdom of the past and too rushed to consider the consequences of our actions we are caught up in a culture of sensationalism and transience in which the very definitions of personal identity and democracy are being transformed Hyperculture dares to suggest that the cure for our condition lies not in an information superhighway or third wave information revolution but in the radical and painful process of decelerating our lives enough to reclaim them It is a daunting challenge to be sure but one on which our happiness and even our survival depend
