Characteristics and Functions of Direct Quotes in Hispanic Fiction Isolde J. Jordan, 2001 The application of pragmalinguistic methods of analysis to literature is often difficult due to the special and unique way language is used in a written literary work Based on the assumption that literature is an act of communication Isolde J Jordan applies communication models such as Bühler's Jakobson's and Ducrot's and theories of relevance information and dialogue structure and foregrounding to direct quotations taken from Hispanic fiction Jordan shows how direct speech reporting can facilitate the interpretation of fiction by creating context enhancing relevance and by foregrounding information and thus speaking directly to the reader G.K. White, Veronica Franco, 2023-07-03 Mentoring demonstrably increases the retention of undergraduate and graduate students and is moreover invaluable in shaping and nurturing academic careers With the increasing diversification of the student body and of faculty ranks there's a clear need for culturally responsive mentoring across these dimensions Recognizing the low priority that academia has generally given to extending the practice of mentoring let alone providing mentoring for Black indigenous and people of color BIPOC and first generation students this book offers a proven and holistic model of mentoring practice developed in the field of psychology that not only helps mentees navigate their studies and the academy but provides them with an understanding of the systemic and racist barriers they will encounter validates their cultural roots and contributions and attends to their personal development Further recognizing the demands that mentoring places on already busy faculty the model addresses ways of distributing the work inviting White and BIPOC faculty to participate developing mentees capacities to mentor those that follow them building a network of mentoring across generations and adopting group mentoring Intentionally planned and implemented the model becomes self perpetuating building an intergenerational cadre

of mentors who can meet the growing and continuing needs of the BIPOC community Opening with a review of the salient research on effective mentoring and chapters that offer minority students views on what has worked for them as well as reflections by faculty mentors the core of the book describes the Freedom Train model developed by the godfather of Black psychology Dr Joseph White setting out the principles and processes that inform the Multiracial Multiethnic Multicultural M3 Mentoring Model that evolved from it and offers an example of group mentoring While addressed principally to faculty interested in undertaking mentoring and supporting minoritized students and faculty the book also addresses Deans and Chairs and how they can create Freedom Train communities and networks by changing the cultural climate of their institutions providing support and modifying faculty evaluations and rewards that will in turn contribute to student retention as well as creative and productive scholarship and research This is a timely and inspiring book for anyone in the academy concerned with the success of BIPOC students and invigorating their department s or school s scholarship
