## **Charisma And Social Structure:**

**Charisma, History, and Social Structure** Ronald Glassman, William H. Swatos Jr., 1986-05-20 This new collection of essays looks at Max Weber's concept of the charismatic leader and the role and significance of charismatic leadership in relation to structural developments in contemporary society Following the editors overview of Weber's typology the classical commentaries of H H Gerth C Wright Mills and Reinhard Bendix are presented Responding to these a subsequent essay redefines Weber's position and examines misinterpretations of his original concept The question of illegitimate authority is considered both in terms of specific leaders who have abused power and of the manufacture of charisma Through case studies of the movements of Calvinism Hasidism the Unification Church and modern Iran the religious face of charismatic leadership is investigated The falsification of charisma the creation of superstars by the media is studied in connection with the cynicism and impersonality that permeate our rational approach to social life and political action The complex causal connections between charismatic leadership and social structure are analyzed using studies of successful and unsuccessful charismatic leaders Questions such as why some leaders fail while others succeed and whether or to what degree social structure sets limits on the impact of charisma are explored Particular emphasis is given to the structural and cultural processes that lead nations in a democratic or despotic authoritarian direction

**Charisma and Social Structure** Raymond Trevor Bradley, 1998 The author states in his preface Despite charisma's growing importance social science has made little progress in unraveling the enigma of charisma beyond that achieved by Max Weber over half a century ago The results of the research reported in this book offer what I believe is a new and fruitful understanding of charisma As Karl H Pribram says in his Foreword Bradley comes off as a superb scientist Convinced that the common idea that charisma is mainly the leadership quality of an exceptional individual Bradley believes that charisma occurs because of the nature and dynamics of certain groups Much of his research is based on the study of communes in the 1970's The results of the research reported in this landmark book offer important insights into our understanding of charisma The relational forms that provide charisma with its power for radical social transformation within a group a hierarchy of communion and a hierarchy of power are what account for the stability of charismatic groups Evidence suggests a similar interrelationship holds for noncharismatic systems This book is for sociologists and psychologists and also for researchers political opinion makers advertisers managers and anyone interested in the invisible workings of human power love and communication

*Charisma, History, and Social Structure* William H. Swatos Jr., 1986-05-20 This new collection of essays looks at Max Weber's concept of the charismatic leader and the role and significance of charismatic leadership in relation to structural developments in contemporary society Following the editors overview of Weber's typology the classical commentaries of H H Gerth C Wright Mills and Reinhard Bendix are presented Responding to these a subsequent essay redefines Weber's position and examines misinterpretations of his original concept The question of illegitimate authority is considered both in terms of

specific leaders who have abused power and of the manufacture of charisma Through case studies of the movements of Calvinism Hasidism the Unification Church and modern Iran the religious face of charismatic leadership is investigated The falsification of charisma the creation of superstars by the media is studied in connection with the cynicism and impersonality that permeate our rational approach to social life and political action The complex causal connections between charismatic leadership and social structure are analyzed using studies of successful and unsuccessful charismatic leaders Questions such as why some leaders fail while others succeed and whether or to what degree social structure sets limits on the impact of charisma are explored Particular emphasis is given to the structural and cultural processes that lead nations in a democratic or despotic authoritarian direction *Max Weber's Politics of Civil Society* Sung Ho Kim, 2004-06-07 This book is an in depth interpretation of Max Weber as a political theorist of civil society On the one hand it reads Weber s ideas from the perspective of modern political thought rather than the modern social sciences on the other it offers a liberal assessment of this complex political thinker without attempting to apologize for his shortcomings Through an alternative reading of Weber s religious epistemological and political writings the book shows Weber s concern with public citizenship in a modern mass democracy and civil society as its cultivating ground Kim argues Weber s political thought thus recast was deeply informed by Kant Hegel Nietzsche and other German political thinkers and also reveals an affinity to the liberal republican tradition best represented by Mill and Tocqueville Kim has effectively resuscitated Weber as a political thinker for our time in which civic virtues and civil society have once again become one of the dominant issues **Charismatic Leadership in**

**Singapore** Dayan Hava, Chan Kwok-bun, 2012-01-14 This volume explores the nature of charisma as it accounts for the success of leaders Charisma is deconstructed and illustrated through the case studies of three influential leaders in Singapore Cultural issues are discussed and leadership qualities in general are explored **Social Structure and Politics** T. K. Oommen, 1984 **Cyberchiefs** Mathieu ONeil, 2009-03-20 People are inventing new ways of working together on the internet Decentralised production thrives on blogs wikis and free software projects Cyberchiefs focuses on the regulations of these working relationships It examines the transformation of leadership and expertise in online networks and the emergence of innovative forms of participatory politics What are the costs and benefits of alternatives to hierarchical organisation Using case studies of online projects or tribes such as the radical Primitivism archive Daily Kos the Debian free software project and Wikipedia this book shows that leaders must support maximum autonomy for participants and looks at the tensions generated by this distribution of authority Sociology: Social Structure and Change Bernard S. Philips, 1970

*Making Charisma* Anthony J. Blasi, The authority of charisma entails a devotion to the exceptional sanctity heroism or exemplary character of an individual person In the sociology of religion it has long been held that the authority of institutions is legitimated by their identification with charismatic personalities However in this book which examines the construction of St Paul s public image Anthony J Blasi argues that charisma comes as much from us as it is projected by the personages It is

a work of the collective imagination and a fulfillment of a social need Thus the charisma of St Paul is shown to emerge as much or more from the dynamics of early Christianity's institutionalization as from the person of Paul While acknowledging the importance of certain features of Paul's actual biography the principle focus of the book is on how Paul became an important personality in Christian tradition in the decades immediately following his death The ability of the charismatic personality to make acts and creeds religiously legitimate is usually thought of by sociologists as producing normative organizations such as churches but here it is shown that Paul's charisma was consciously fostered and promoted by the incipient Christian church The book is divided into segments that examine the social construction of charisma the role of St Luke in fashioning Paul's posthumous image the traditions and legends that grew up around Paul after his death including inauthentic Pauline letters written in his name and the dynamics of constructing the image in the religious and historical context of the time The author concludes with a reconsideration of what is meant by charisma and how it is created This is one of the few studies which takes advantage of the methods of literary criticism to explore the social processes at work in early Christianity Making Charisma will be of interest to sociologists of religion and a wide range of scholars interested in the history of religion      **The Social Structure of Attention** Michael Robin Alexander Chance, Ray R. Larsen, 1976

**Charisma and Authority in Israelite Society** Rodney R. Hutton, 1994 Rodney R Hutton contends that the generally presupposed antithesis between the charismatic and the institutional in the Hebrew Bible is a false dichotomy With regard to judges prophets priests royal dynasties and sages there is in the Old Testament an interplay of traditional legal rational and charismatic impulses An examination of the social matrices of ancient Israel with respect to each of these leadership types shows that they all exhibit aspects of the charismatic type      **Charisma and Brotherhood in African Islam** Donal Brian Cruise O'Brien, Christian Coulon, 1988 These papers explore the role of leadership and organization in African Islam in terms of social environment and hagiographical tradition Drawing on a wealth of historical sources the contributors include anthropologists historians and religious and political experts      **Alien Concepts and South Asian Reality** T K

Oommen, 1995-12-18 In this thought provoking book T K Oommen demonstrates that Indian social science is not a mere captive of Western or Marxist intellectual influences Part One is a response to five Western and Marxist theories and concepts the old concept of dichotomy and the new one of continuum Weber's notion of charismatic leaders political pluralism voluntary associations and the nature of students movements in the context of revolution In Part Two the author reformulates various theories and concepts based on empirical evidence from Asia      *Charisma and Leadership in Organizations* Alan Bryman, 1992 Explores the concept of charisma in relation to management issues as well as to leadership It presents theoretical perspectives on the nature of the charisma and examines the concept of transformational leadership in relation to business and public organizations This book explores the concept of charisma in relation to management issues as well as to leadership      **The Age of Charisma** Arthur Schweitzer, 1984      **Charisma, Stability, and Change** T.
