Charles Maurras Classicising Aesthetics:

Charles Maurras's Classicising Aesthetics Gaetano DeLeonibus, 2000 Charles Maurras founder of the Action Française was a highly influential thinker in fin de siècle literary and political scenes but has fallen out of favor among current academics due to his radical right wing ideology This study seeks to understand that ideology in terms of his aestheticization of politics a driving principle behind Maurras the person the critic and the storyteller Originally formulated in the early 1890s Maurras's classicising aesthetics aims to reintegrate the ethical and the political back into an organic whole as represented by the classical and neo classical traditions and informs both his racist and nationalist discourses **T. S. Eliot and Christian Tradition** Benjamin G. Lockerd, 2014-06-18 T S Eliot was raised in the Unitarian faith of his family in St Louis but drifted away from their beliefs while studying philosophy mysticism and anthropology at Harvard During a year in Paris he became involved with a group of Catholic writers and subsequently went through a gradual conversion to Catholic Christianity Many studies of Eliot's writings have mentioned his religious beliefs but most have failed to give the topic due weight and many have misunderstood or misrepresented his faith More recently scholars have begun exploring this dimension of Eliot's thought more carefully and fully In this book readers will find Eliot's Anglo Catholicism accurately defined and thoughtfully considered Essays illuminate the all important influence of the French Catholic writers he came to know in Paris Prominent among them were those who wrote for or were otherwise associated with the Nouvelle Revue Française including André Gide Paul Claudel and Charles Louis Philippe Also active in Paris at that time was the notorious Charles Maurras whose influence on Eliot has been exaggerated by those who wished to discredit Eliot's traditionalist views A more measured assessment of Maurras's influence has been needed and is found in several essays here A wiser French Catholic writer Jacques Maritain has been largely ignored by Eliot scholars but his influence is now given due consideration The keynote of Eliot's cultural and political writings is his belief that religion and culture are integrally related Several contributors examine his ideas on this subject placing them in the context of Maritain's ideas as well as those of the Catholic historian Christopher Dawson Contributors take account of Eliot's intellectual relationship with such figures as John Henry Newman Charles Williams and the expert on church architecture W R Lethaby Eliot's engagement with other contemporaries who held a variety of Christian beliefs including George Santayana Paul Elmer More C S Lewis and David Jones is also explored This collection presents the subject of Eliot's religious beliefs in rich detail from a number of different perspectives giving readers the opportunity to see the topic in its complexity and fullness *Whose Spain?* Samuel Llano, 2013 In this book Llano analyzes the socio political discourses underpinning critical and musicological descriptions of Spanish music at the beginning of the nineteenth century and the discourse's connection with French politics and culture of the era Llano studies operas and other musical works for the stage as privileged sites for the production of Spanish musical identities and ultimately demonstrates that definitions of French and Spanish music during this period were to some extent interdependent

‘Race Is Everything’ David Bindman, 2023-07-17 A timely and revealing look at the intertwined histories of science art and racism *Race Is Everything* explores the spurious but influential ideas of so called racial science in the nineteenth and the first half of the twentieth centuries and how art was affected by it David Bindman looks at race in general but with particular concentration on attitudes toward and representations of people of African and Jewish descent He argues that behind all racial ideas of the period lies the belief that outward appearance and especially skull shape as studied in the pseudoscience of phrenology can be correlated with inner character and intelligence and that these could be used to create a seemingly scientific hierarchy of races The book considers many aspects of these beliefs including the skull as a racial marker ancient Egypt as a precedent for Southern slavery Darwin race and aesthetics the purported Mediterranean race the visual aspects of eugenics and the racial politics of Emil Nolde

A Cubism Reader Mark Antliff, Patricia Dee Leighton, 2008 This definitive anthology covers the historical genesis of cubism from 1906 to 1914 with documents that range from manifestos and poetry to exhibition prefaces and reviews to articles that address the cultural political and philosophical issues related to the movement Most of the texts Mark Antliff and Patricia Leighton have selected are from French sources but their inclusion of carefully culled German English Czech Italian and Spanish documents speaks to the international reach of cubist art and ideas Equally wide ranging are the writers represented a group that includes Guillaume Apollinaire Gertrude Stein Jean Metzinger Albert Gleizes Fernand Léger Francis Picabia André Salmon Raymond Duchamp Villon Henri Le Fauconnier and many others Publisher description

Academics, Pompiers, Official Artists and the Arrière-garde Natalie Adamson, Toby Norris, 2009 *Academics Pompiers Official Artists and the Arrière-garde* Defining Modern and Traditional in France 1900 1960 is a collection of eight essays and a scholarly introduction by established and emerging scholars that challenges the continuing modernist slant of twentieth century art history The intention is not to perpetuate the vulgar opposition between avant garde and reactionary art that characterized early twentieth century discourse and has marked much subsequent historical writing but rather to investigate the complex relationship that both innovative and conservative artists had to the concept of tradition How did artists and art critics conceive of tradition in relation to modernity What was the role of an artist TM’s institutional positioning in determining expectations for his or her art What light is thrown on the structure of the French art world by considering artists from abroad who worked in Paris How did the war alter modernist and avant garde paradigms and force crucial changes upon art production in the postwar period to 1960 Particular attention is paid to the terms academic pompier official and arrière-garde originally used to situate the more conservative artists and works as second rate or as the negative foil to the assumed radicalism of the avant garde By re-evaluating the work of artists pushed to the historical margins by

such polemical descriptors and by proposing alternative understandings of the aesthetic economic institutional and political factors that drive our ideas of avant gardism and the modernist narrative in France this collection of essays offers new routes to explore the terrain of twentieth century art in France Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen ,1996 **Nouvelle école** ,1997 *Bibliographie d'histoire littéraire française* Otto Klapp,2002 Joan Miró, 1893-1993 Joan Miró,1993 The most comprehensive look at Miro s art available in book form In honor of Miro s 100th birthday 1993 has been designated Miro Year which is being celebrated with great **Kindlers Literatur Lexikon** Heinz Ludwig Arnold,2009 **Umění** ,2007 *Charles Maurras* Emile Sicard,1919
