Charters Of The Medieval Hospitals Of Bury St Edmunds:

Charters of the Medieval Hospitals of Bury St. Edmunds Christopher Harper-Bill, 1994 Deserves a resounding welcome from medievalists EHR This volume contains over 250 charters and other documents relating to four of the six hospitals established in medieval Bury The core of the collection is the cartulary of St John's hospital the domus Dei but documents relating to the hospitals of St Nicholas St Peter and St Saviour are also included The charters relate mainly to the endowment of the hospitals by the abbot and convent but there are also ordinances for the administration of the hospitals and for the establishment of chantries therein The great majority of texts are presented in the form of a full English calendar and there are English summaries of those printed in Latin This is the first volume of the Suffolk Charter series to concentrate on Bury St Edmunds it will be followed eventually by an edition of charters relating to the abbey's property in the borough

Accounts of the Feoffees of the Town Lands of Bury St Edmunds, 1569-1622 Margaret Statham, 2003 In the absence of borough status and after the winding up of the guilds the townsmen of Bury St Edmunds experimented with town government In 1569 thirty years after its abbey had been dissolved the large town of Bury St Edmunds remained unincorporated These accounts show how the feoffees still essentially the medieval Candlemas guild experimented with town government The pre Reformation landed endowments were increased throughout the period This enabled the feoffees to address many aspects of town life In addition to payments for housing and clothing the poor and the provision of medical care they also contributed to the cost of providing clergy whose theology was akin to their own for the two town churches To encourage trade they built the town's first covered Market Cross while the acquisition of the Shire House enabled the assizes and quarter sessions to move into the town After the turn of the century the Charitable Uses Act of 1601 was used to recover land which had long ago been alienated At the same time some of the up and coming men successfully petitioned for a charter of incorporation for Bury St Edmunds so that in 1606 the town acquired the borough status which had eluded it for centuries Unless new sources are discovered these accounts though inevitably slanted to the feoffees activities are the most revealing source for the work of the new corporation in its early years

The Making of Manners and Morals in Twelfth-Century

England Fiona Whelan, 2017-01-12 How different are we from those in the past Or how different do we think we are from those in the past Medieval people were more dirty and unhygienic than us as novels TV and film would have us believe but how much truth is there in this notion This book seeks to challenge some of these preconceptions by examining medieval society through rules of conduct and specifically through the lens of a medieval Latin text entitled The Book of the Civilised Man or Urbanus magnus which is attributed to Daniel of Beccles Urbanus magnus is a twelfth century poem of almost 3 000 lines which comprehensively surveys the day to day life of medieval society including issues such as moral behaviour friendship marriage hospitality table manners and diet Currently it is a neglected source for the social and cultural history of daily life in medieval England but by incorporating modern ideas of disgust and taboo and merging anthropology sociology and archaeology with history this book aims to bring it to the fore and to show that medieval people did have standards of behaviour Although they may seem remote to modern civilised people there is both continuity and change in human behaviour throughout the centuries

Saints, Cure-seekers and Miraculous Healing in Twelfth-century

England Ruth J. Salter, 2021 The cults of the saints were central to the medieval Church These holy men and women acted as patrons and protectors to the religious communities who housed their relics and to the devotees who requested their assistance in petitioning God for a miracle Among the collections of posthumous miracle stories miracula accounts of holy healing feature prominently and depict cure seekers successfully securing their desired remedy for a range of ailments and afflictions What can these miracle accounts tell us of the cure seekers experiences of their journey from ill health to recovery

and how was healthcare presented in these sources This book undertakes an in depth study of the miraculous cure seeking process through the lens of Latin miracle accounts produced in twelfth century England a time both when saints cults particularly flourished and there was an increasing transmission and dissemination of classical and Arabic medical works Focused on shorter miracula with a predominantly localised focus and thus on a select group of cure seekers it brings together studies of healthcare and pilgrimage to look at an alternative to medical intervention and the practicalities and processes of securing saintly assistance **Suffolk Charters** ,1996 *Cities, Texts and Social Networks, 400-1500* Caroline Goodson, Anne E. Lester, Carol Symes, 2017-05-15 *Cities Texts and Social Networks* examines the experiences of urban life from late antiquity through the close of the fifteenth century in regions ranging from late Imperial Rome to Muslim Syria Iraq and al Andalus England the territories of medieval Francia Flanders the Low Countries Italy and Germany Together the volume s contributors move beyond attempts to define the city in purely legal economic or religious terms Instead they focus on modes of organisation representation and identity formation that shaped the ways urban spaces were called into being used and perceived Their interdisciplinary analyses place narrative and archival sources in communication with topography the built environment and evidence of sensory stimuli in order to capture sights sounds physical proximities and power structures Paying close attention to the delineation of public and private spaces and secular and sacred precincts each chapter explores the workings of power and urban discourse and their effects on the making of meaning The volume as a whole engages theoretical discussions of urban space its production consumption memory and meaning which too frequently misrepresent the evidence of the Middle Ages It argues that the construction and use of medieval urban spaces could foster the emergence of medieval public spheres that were fundamental components and by products of pre modern urban life The resulting collection contributes to longstanding debates among historians while tackling fundamental questions regarding medieval society and the ways it is understood today Many of these questions will resonate with scholars of postcolonial or non Western cultures whose sources and cities have been similarly marginalized in discussions of urban space and experience And because these essays reflect a considerable geographical temporal and methodological scope they model approaches to the study of urban history that will interest a wide range of readers **Suffolk Records Society** ,2009
