Organizing Schools for Improvement Anthony S. Bryk, Penny Bender Sebring, Elaine Allensworth, John Q. Easton, Stuart Luppescu, 2010-03-15 In 1988 the Chicago public school system decentralized granting parents and communities significant resources and authority to reform their schools in dramatic ways To track the effects of this bold experiment the authors of Organizing Schools for Improvement collected a wealth of data on elementary schools in Chicago Over a seven year period they identified one hundred elementary schools that had substantially improved and one hundred that had not What did the successful schools do to accelerate student learning The authors of this illuminating book identify a comprehensive set of practices and conditions that were key factors for improvement including school leadership the professional capacity of the faculty and staff and a student centered learning climate In addition they analyze the impact of social dynamics including crime critically examining the inextricable link between schools and their communities Putting their data onto a more human scale they also chronicle the stories of two neighboring schools with very different trajectories The lessons gleaned from this groundbreaking study will be invaluable for anyone involved with urban education

How a City Learned to Improve Its Schools Anthony S. Bryk, Sharon Greenberg, Albert Bertani, Penny Sebring, Steven E. Tozer, Timothy Knowles, 2023-04-18 A comprehensive analysis of the astonishing changes that elevated the Chicago public school system from one of the worst in the nation to one of the most improved How a City Learned to Improve Its Schools tells the story of the extraordinary thirty year school reform effort that changed the landscape of public education in Chicago Acclaimed educational researcher Anthony S Bryk joins five coauthors directly involved in Chicago s education reform efforts Sharon Greenberg Albert Bertani Penny Sebring Steven E Tozer and

Timothy Knowles to illuminate the many factors that led to this transformation of the Chicago Public Schools Beginning in 1987 Bryk and colleagues lay out the civic context for reform outlining the systemic challenges such as segregation institutional racism and income and resource disparities that reformers grappled with as well as the social conflicts they faced Next they describe how fundamental changes occurred at every level of schooling enhancing classroom instruction organizing more engaged and effective local school communities strengthening the preparation recruitment and support of teachers and school leaders and sustaining an ambitious evidence based campaign to keep the public informed on the progress of key reform initiatives and the challenges still ahead The power of this capacity building is validated by unprecedented increases in benchmarks such as graduation rates and college matriculation This riveting account introduces key actors within the schools city government and business community and the partnerships they forged It also reveals the surprising yet essential role of Chicago s innovative information infrastructure in aligning disparate initiatives In making clear how elements such as advocacy civic capacity improvement research and strong democracy contributed to large scale progress in the system s 600 plus schools the book highlights the greater lessons that the Chicago story offers for system improvement overall

The Praeger Handbook of Urban Education Philip M. Anderson, Kecia Hayes, Joe Kincheloe, Karel Rose, 2006-03-30 Maintaining that urban teaching and learning is characterized by many contradictions this work proposes that there is a wide range of social cultural psychological and pedagogical knowledge urban educators must possess in order to engage in effective and transformative practice It is necessary for those teaching in urban schools to be scholar practitioners rather than bureaucrats who can only follow rather than analyze understand and create Ten major sections cover the myriad issues of urban education as it exists today

School Reform, Corporate Style Dorothy Shipps, 2006 Like other big city school systems Chicago s has been repeatedly reformed over the last century Yet its schools have fallen far short of citizens expectations and left a gap between the performances of white and minority students Many blame the educational establishment for resisting change Other critics argue that reform occurs too often still others claim it comes not often enough Dorothy Shipps reappraises the tumultuous history of educational progress in Chicago revealing that the persistent lack of improvement is due not to the extent but rather the type of reform Throughout the twentieth century managerial reorganizations initiated by the business community repeatedly altered the governance structure of schools as well as the relationships of teachers to children and parents but brought little improvement while other more promising reform models were either resisted or crowded out Shipps chronicles how Chicago s corporate actors led abetted or restrained nearly every attempt to transform the city s school system then asks whether schools might be better reformed by others To show why city schools have failed urban children so badly she traces Chicago s reform history over four political eras revealing how corporate power was instrumental in designing and revamping the system Her narrative encompasses the formative era of 1880 1930 when teachers unions moderated business plans previously unexplored business activism from

1930 to 1980 when civil rights dominated school reform and the decentralization of the 1980s She also covers the uneasy cooperation among business associations in the 1990s to install the mayor as head of the school system a governing regime now challenged by privatization advocates Business people may be too wedded to a stunted view of educators to forge a productive partnership for change Unionized teachers bridle at the second class status accorded them by managers If reform is to reach deeply into classrooms Shippis concludes it might well require a new coalition of teachers unions and parents to create a fresh agenda that supersedes corporate interests This study clearly shows that in Chicago as elsewhere urban schooling is intertwined with politics and power By reviewing more than a century of corporate efforts to make education work Shippis makes a strong case that it s high time to look elsewhere perhaps to educators themselves for new leadership

A Simple Justice William Ayers, Michael Klonsky, Gabrielle H. Lyon, 2000-05 Written by major players in the small schools movement this collection of essays points to the ways school restructuring strategies connect to the ongoing pursuit of social justice The editors bring together writers who are both educators and advocates for youth and who think changing schools can help change the world Building bridges to their fellow educators these essayists make powerful arguments in favour of smaller school size as an achievable reform goal Building Civic Capacity, 2001 The authors of this volume argue that urban education is in urgent need of reform and that although there have been plenty of innovative and even promising attempts to improve conditions most have been doomed The reason for this they agree lies in the failure of our major cities to develop their civic capacity The ability to build and maintain a broad social and political coalition across all sectors of the urban community in pursuit of a common goal **Brookings Papers on Education Policy: 1999** Diane

levels by using whole school designs and design team assistance during implementation Since its inception NAS has engaged in a development phase 1992 1993 a demonstration phase 1993 1995 and a scale up phase 1995 present Over the last ten years RAND has been monitoring the progress of the NAS initiative This book is a retrospective on NAS and draws together the findings from RAND research The book underscores the significant contributions made by NAS to comprehensive school reform but also highlights the challenges of trying to reform schools through whole school designs Divided into sections on each research phase the book concludes with an afterword by NAS updating its own strategy for the future This book will interest those who want to better understand comprehensive school reform and its effects on teaching and learning within high stakes accountability environments

Public Education, Democracy, and the Common Good Donovan R. Walling, 2004 In the early days of the American republic universal public education was proposed as the surest support of the common good and the only institution that could ensure and sustain the good health of the American democracy Is this proposition still true today If so how should we act on this proposition as educators as citizens For this anthology the Phi Delta Kappa Educational Foundation invited essays on this topic based on research and informed opinion From cover
