BASIC DATA :

Mrs. O'Donnell is a 72 year old female admitted via ER 3 days ago for UTI, fever, weakness. Was found on the floor of her home by her daughter. C/O "not feeling well" for 1 week prior to admission. A&O x3 and "doesn't know what all the fuss is about, I had to go to the bathroom all the time and just got a little dizzy." Does not recall how she got on the floor at home. Falls have not been a problem previously, per the daughter. Now needs assist x1 to BSC, reminders to use call light. Pt still c/o urgency/frequency and will be incontinent if assistance is not prompt. Vital signs an hour ago were: T = 98.9F (oral), P = 68, R = 22, BP 138/76, pulse ox = 98% on Room Air, no c/o pain. Does not like the "force fluids" order because "it makes me have to use the bathroom too much."

PHYSICAL EXAMINATION :

- Gender : F
- Age : 72
