Charting Caribbean Development:

Charting Caribbean Development Anthony Payne, Paul Sutton, 2001 This is an overarching account of Caribbean development within the framework of increasing globalization of the world economy It charts the shifting politics of development within the countries of the Commonwealth Caribbean during the last 40 years era of independence for most of these countries

Charting Caribbean Development, 2001 **Region-building** Ludger Kühnhardt, 2010-07-01 After two centuries of nation building the world has entered an era of region building in search of political stability cultural cohesion and socio economic development Nations involved in the regional structures and integration schemes that are emerging in most regions of the world are deepening their ambitions with Europe's integration experience often used as an experimental template or theoretical model Volume I provides a political analytical framework for recognizing the central role of the European Union not only as a conceptual model but also a normative engine in the global proliferation of regional integration It also gives a comprehensive treatment of the focus motives and objectives of non European integration efforts Volume II offers a unique collection of documents that give the best available overview of the legal and political evolution of region building based on official documents and stated objectives of the relevant regional groupings across all continents Together these volumes are important contributions for understanding the evolution of global affairs in an age when power shifts provide new challenges and opportunities for transatlantic partners and the world community

Globalization, 3rd edition Eleonore Kofman, Gillian Youngs, 2008-04-28 This fully revised and updated textbook focuses on the major topics of globalization today These include the impact of migration relations between the northern and southern hemispheres how gender and power plays into the globalization process and the politics and economics of freedom of movement in the world Two new chapters on the impact of technology on global communications and the effect of the emerging economies of India and China bring the book fully up to date Further current issues such as the debate concerning environmental security natural disasters the broad spectrum between women's empowering impact in the marketplace and the continued exploitation of women in the sex and service trade are also examined Eleanor Kofman and Gillian Youngs have edited an excellent and comprehensive collection essential for both undergraduate and graduate students trying to gain an understanding of theories and practices driving globalization as we enter into the twenty first century

The Cost of Globalization Julian E. Kunnie, 2015-04-23 The issues arising from rapid global integration have generally been treated in isolation by most academic works This volume examines the many pitfalls of globalization from the perspective of impoverished and indigenous peoples including the widening wealth gap the struggle for restoration of dispossessed lands and cultural rights global warming and ecological annihilation and the experiences of women in underdeveloped regions The United States growing prison industrial complex is discussed The author concludes with a call for reassessing current ways of living and proposes recreating cultures of conservation and sustainable economies Instructors considering this book for

Crime, Violence and Security in the Caribbean M. Raymond Izarali, 2017-11-20 Security challenges pose significant hardship for citizens of Caribbean nations Public safety is threatened by high rates of crime especially violent crime in much of the region the plague of the illicit drug trade transnational organized crime gangs the current global proliferation of crimes of terrorism and related violent extremism and radicalization The situation diminishes morale among the youth their education and their future and operates as a major push factor Yet surprisingly there has been a scarcity of scholarly work that addresses these conditions This interdisciplinary volume succinctly responds to the gap in criminological and security studies on the Caribbean by drawing attention to the understudied nexus of crime violence and security that is so pervasive in the region and the ways in which underdevelopment re creates environments for insecurity The book is organized in three parts Part one encompasses conceptualizations of crime violence and punishment Part two takes up country cases on crime and security Part three addresses issues of regional security both public and private This timely volume will be valuable reading for scholars students practitioners and policy makers who share a critical interest in the scope impact and inter relationality of crime violence and in security in the region **European Review of Latin American and Caribbean**

Studies ,2003 **Globalization** Ashish Vaidya, 2005-12-19 This work is a comprehensive collection of cutting edge scholarship on the economic international business political legal and environmental ramifications of globalization one of the hottest topics of the day International trade is as old as nations During the last five decades however advances in technology and transportation have changed the scope and method of international trade Disputes rage about the effects of these changes advocates for different positions offer argument but little factual or theoretical analysis Globalization offers all the information readers need to sort out the arguments Written with the highest degree of scholarship intended for college students or working professionals the encyclopedia provides both introductory material to broad economic legal political and environmental theory and in depth analysis of how theory interacts with practice in the framework of global trade A trader in New York can in a matter of seconds execute a billion dollar currency transaction in Hong Kong What does this transaction mean to New Yorkers to residents of Hong Kong and to the rest of the world This book gives readers the tools to answer those questions Constructing Vernacular Culture in the Trans-Caribbean Holger Henke, Karl-Heinz Magister, 2008

Constructing Vernacular Culture in the Trans Caribbean traces the contradictory cultural trajectories constructed and re produced in the fluid diasporic spaces we call the Trans Caribbean Particular emphasis is placed on such cultural expressions that reflect or derive from the cultural vernacular and popular culture as it exists in these spaces Its multidisciplinary approach and focus on different language areas in the Trans Caribbean are of particular interest to scholars in cultural studies migration literary theory and cultural criticism **Abstracts of Public Administration, Development, and**

Understanding Development John Rapley, 2007 Praise for the previous editions Emphasizing a close link between
development theory and the actual practice of economic policymaking Rapley grounds the discussion in a way that will be
much appreciated by both students and their instructors He writes with a rare clarity Bruce E Moon American Political
Science Review Concise yet all encompassing and meticulously referenced Rapley s study is determined to unravel the
intricacies of development practice across the third world and map out its intellectual roots The project certainly succeeds in
these goals Firooza Pavri Progress in Development Studies This lucidly written book thoroughly updated provides both an
assessment of the current state of development theory and an extensive survey of the impact of evolving policies and
practices throughout the developing world Rapley critically traces the evolution of development theory from its strong statist
orientation in the early postwar period through the neoclassical phase to the present emerging consensus on people centered
development New to the third edition is a chapter on postdevelopment thought as well as increased attention to the
challenges posed by weak states and by critical environmental issues Using a wide range of examples Rapley shows where
and how various approaches to development have worked or failed continuing to confront the question of why development
remains so far out of reach for so many poor countries John Rapley is senior lecturer in the Department of Government
University of the West Indies Mona His publications include Globalization and Inequality Neoliberalism s Downward Spiral
Contents Introduction The Progress of Development Development Theory in the Postwar Period State Led Development in
Practice The Neoclassical Answer to Failure Neoclassical Reform in Practice Development Theory in the Wake of Structural
Adjustment The End of the Developmental State A New Beginning Conclusion *Latin American Studies Association ...*
